**European Higher Education** Lennart Björk,Gerd Bräuer,L. Rienecker,Peter Stray Jörgensen,2005-12-30 DAVID R  
RUSSELL English Department of Iowa State University U S A I was fortunate to attend as a visitor from the U S the first European Association for the Teaching of Academic Writing EATAW conference in 2001 at Groningen I was struck by the similarities in the challenges higher education faces on both sides of the Atlantic in terms of developing students academic writing and students learning through writing It is indeed an international problem But I was equally struck by the profound differences in responding to these challenges among tions institutions disciplines and even within disciplines The essays in this traordinary volume address a growing demand for help with academic writing on the part of students and academic staff alike And they do so in ways that bring fresh approaches not only to Europeans who have only recently begun to study academic writing but also to researchers and academic staff in the U S where we have a c tury old tradition of attention to the problem but are much in need of these fresh approaches Academic writing has become a problem in higher education all around the world because higher education sits smack between two contradictory pressures On one end far more students and far more diverse students come streaming into higher education bringing in a far greater diversity of linguistic resources often interpreted as standards are falling as Frank Haacke Tente point out      **I Hate Writing** J. M. Bohannon,2005 I Hate

Writing may be the only page turner textbook out there J M Bohannon gives her readers invaluable writing advice using an uplifting modern voice tinged with humor She takes her readers through the stages of writing a paper giving detailed advice on how to find topics turn ideas into words and organize those words into coherent paragraphs with seamless transitions She shows her readers how to revise their own work and through her Critical Q s teaches them to become critical readers She also explains how to find outside sources and how to include those sources in a paper Too many students approach writing at the university level as a scientist approaches a volatile experiment with protective suit goggles gloves and forceps They struggle to write without contaminating that writing with anything resembling personality Don t let that student be you Your unique voice should blast through your writing letting everyone know there s a person behind your words      **Writing in the**
