Schizer, 2023-05-23 The US has over 15 million nonprofits which touch our lives in countless ways. The finest are inspiring but unfortunately too many let us down. Luckily there is a solution. *How to Save the World in Six Not So Easy Steps* by expert scholar and nonprofit leader David M. Schizer is the ultimate management book for nonprofit professionals, board members and donors. Since the goal of nonprofits is to advance their mission, not to make money, performance can be difficult to assess. Schizer explains how this fundamental challenge makes it harder to expose unwise and self-interested choices, resolve conflicts and evolve with the times. In response, nonprofits need to do two challenging things really well: figure out the best way to advance the mission and then build support for it. With entertaining anecdotes from his many years leading Columbia Law School and international humanitarian organization JDC, as well as interviews with an all-star cast of nonprofit leaders, Schizer explains how to accomplish these twin goals with the six Ps: Plan, Run, a rigorous planning process; Persevere, Line up internal support; Prioritize, Set priorities by asking three key questions; Pivot, Test innovations; Publicize, Share ideas and hold yourself accountable; Partner, Raise more money by involving donors in the work; By chronicling the good, the bad and the ugly at nonprofits and explaining how to get more out of them, this book shows how we can save the world together with the six Ps.

How to Save Your Planet One Object at a Time Tara Shine, 2020-04-16 an unpreachy guide free of jargon and full of often surprising information. The Times Change starts at home. In the office Change starts with you. Your family. Your friends. Change starts with everyday things. One object at a time. Sometimes it can feel overwhelming thinking about all that needs to be done to save our planet. This book is the antidote to that feeling. Easy to read and easy to do, here is all the information and inspiration you need to make a difference simply by making smart choices about everyday objects, tasks and habits. Environmental scientist Dr Tara Shine guides you from room to room and occasion to occasion with environmentally friendly solutions backed by science. From swapping bottled soap to bars to replacing cling film with a simple plate, you will reduce your environmental footprint in an instant while saving money. This book busts persistent myths and will once and for all show that living sustainably can be both fun and convenient. Besides, it will not only have a positive impact on the environment but your wellbeing too. Dr Tara Shine is an enlightened big picture thinker and with this book she shows that she is equally and delightfully adept at bringing details into focus. This book is all about realising the power you have as an individual by informing yourself, asking questions and making smart choices. By getting becoming active and joining the conversation, you become empowered and you do something about the problem we face rather than feeling powerless in its presence. Christiana Figueres, Former Executive Secretary of the United Nations Framework Convention on Climate Change.
