The First World War and the Mobilization of Biblical Scholarship Andrew Mein, Nathan MacDonald, Matthew A. Collins, 2019-02-07 This fascinating collection of essays charts for the first time the range of responses by scholars on both sides of the conflict to the outbreak of war in August 1914 The volume examines how biblical scholars like their compatriots from every walk of life responded to the great crisis they faced and with relatively few exceptions were keen to contribute to the war effort Some joined up as soldiers More commonly however biblical scholars and theologians put pen to paper as part of the torrent of patriotic publication that arose both in

the United Kingdom and in Germany The contributors reveal that in many cases scholars were repeating or refining common arguments about the responsibility for the war In Germany and Britain where the Bible was still central to a Protestant national culture we also find numerous more specialized works where biblical scholars brought their own disciplinary expertise to bear on the matter of war in general and this war in particular The volume s contributors thus offer new insights into the place of both the Bible and biblical scholarship in early 20th century culture
