1. The first step is to identify the problem. This involves understanding the current situation and what needs to be changed.

1. *Journal of the American Medical Association*, 2000; 284: 2689-2695.

1. The first step is to identify the problem. This involves understanding the current situation and what needs to be improved.

2. The second step is to set goals. These should be specific, measurable, achievable, relevant, and time-bound.

3. The third step is to develop a plan. This involves determining the steps that need to be taken to achieve the goals.

4. The fourth step is to implement the plan. This involves putting the plan into action and monitoring progress.

5. The fifth step is to evaluate the results. This involves assessing the outcomes of the plan and determining if the goals have been achieved.
