Efficiency of Manufacturing Processes Wen Li,2015-06-13 This monograph presents a reliable methodology for characterising the energy and eco efficiency of unit manufacturing processes The Specific Energy Consumption SEC will be identified as the key indicator for the energy efficiency of unit processes An empirical approach will be validated on different machine tools and

manufacturing processes to depict the relationship between process parameters and energy consumptions. Statistical results and additional validation runs will corroborate the high level of accuracy in predicting the energy consumption. In relation to the eco efficiency, the value and the associated environmental impacts of manufacturing processes will also be discussed. The interrelationship between process parameters, process value and the associated environmental impact will be integrated in the evaluation of eco efficiency. The book concludes with a further investigation of the results in order to develop strategies for further efficiency improvement. The target audience primarily comprises researchers and experts in the field but the book may also be beneficial for graduate students.

Artistry in Bronze Jens M Daehner, Kenneth Lapatin, Ambra Spinelli, 2017-11-21. The papers in this volume derive from the proceedings of the nineteenth International Bronze Congress held at the Getty Center and Villa in October 2015 in connection with the exhibition Power and Pathos: Bronze Sculpture of the Hellenistic World. The study of large scale ancient bronzes has long focused on aspects of technology and production. Analytical work of materials processes and techniques has significantly enriched our understanding of the medium. Most recently the restoration history of bronzes has established itself as a distinct area of investigation. How does this scholarship bear on the understanding of bronzes within the wider history of ancient art? How do these technical data relate to our ideas of styles and development? How has the material itself affected ancient and modern perceptions of form, value and status of works of art? www.getty.edu/publications/artistryinbronze
