Family Medicine J. L. Buckingham, E. P. Donatelle, W. E. Jacott, M. G. Rosen, Robert B. Taylor, 2013-06-29 JOHN S MILLIS In 1966 the Citizens Commission on Graduate Medical Education observed that the explosive growth in biomedical science and the consequent increase in medical skill and technology of the twentieth century had made it possible for physicians to respond to the episodes of illness of patients with an ever increasing effectiveness but that the increase in

knowledge and technology had forced most physicians to concentrate upon a disease entity an organ or organ system or a particular mode of diagnosis or therapy As a result there had been a growing lack of continuing and comprehensive patient care The Commission expressed the opinion that Now in order to bring medicine s enhanced diagnostic and therapeutic powers fully to the benefit of society it is necessary to have many physicians who can put medicine together again The Commission proceeded to recommend the education and training of substantial numbers of Primary Physicians who would by assuming primary responsibility for the patient s welfare in sickness and in health provide continuing and comprehensive health care to the citizens of the United States In 1978 it is clear that the recommendation has been accepted by the public the medical profession and medical education There has been a vigorous response in the development of family medicine and in the fields of internal medicine pediatrics and obstetrics One is particularly impressed by the wide acceptance on the part of medical students of the concept of the primary physician Dr John S *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 [National Library of Medicine Audiovisuals Catalog](#) National Library of Medicine (U.S.), [Principles of Addiction Medicine](#) Richard K. Ries, Shannon C. Miller, David A. Fiellin, 2009 This respected text from the American Society of Addiction Medicine is valuable for all physicians and mental health personnel who specialize in addiction medicine and who treat patients with addiction disorders The chapters blend scientific principles underlying addiction with the practical essentials of clinical addiction medicine Many of the contributors are affiliated with leading government agencies that study addiction and its science such as the National Institute on Alcohol Abuse and Alcoholism and the National Institute on Drug Abuse The book will appeal to a wide and interdisciplinary range of professionals especially those with interest or duties relating to addiction related disorders and in particular physicians seeking certification status via either the American Board of Addiction Medicine or the American Board of Psychiatry and Neurology A companion Website will offer the fully searchable text
