The New Orientalists Ian Almond, 2007-07-20 The west s Orientalism its construction of an Arab or Islamic Other has been exposed and examined under the critical theory microscope and thoroughly expelled it seems from academic thought At the same time postmodern thinkers from Nietzsche onwards have employed the motifs and symbols of the Islamic Orient within an ongoing critique of western modernity an appropriation which this hugely controversial book argues runs every risk of becoming a new and more insidious Orientalist strain Ian Almond sensitively yet rigorously examines the work of Nietzsche Jacques Derrida Michel Foucault Jean Baudrillard Julia Kristeva and Slavoj Zizek as well as that of postmodern writers Jorge Luis Borges Salman Rushdie and Orhan Pamuk In doing so he exposes the implications of this use of Islam for both the postmodern project and for Islam itself Taking apart the assumptions omissions and contradictions inherent in these thinkers approaches to Islam and to the Arab world and drawing on the work of prominent Muslim thinkers including Ziauddin Sardar Aziz Al Azmeh and Bobby S Sayyid *The New Orientalists* highlights the difficulty of ever speaking truly about the Other In light of the current Western climate of fear and hysteria surrounding the Islamic world this groundbreaking

Specters of World Literature Mattar Karim Mattar, 2020-04-02 At the heart of this book is a spectral theory of world literature that draws on Edward Said Aamir Mufti Jacques Derrida and world systems theory to assess how the field produces local literature as an e other that haunts its universalising assimilative imperative with the force of the uncanny It takes the Middle Eastern novel as both metonym and metaphor of a spectral world literature It explores the worlding of novels from the Middle East in recent years and focusing on the pivotal sites of Middle Eastern modernity Egypt Turkey Iran argues that lost to their global production circulation and reception is their constitution in the logic of spectrality With the intention of redressing this imbalance it critically restores their engagements with the others of Middle Eastern modernity and shows through a new reading of the

Pamuk's Istanbul Pallavi Narayan, 2022-04-28 This book reconstructs Istanbul through the prism of Orhan Pamuk s fiction It navigates the multiple selves and layers of Istanbul to present how the city has shaped the writings of Pamuk and has in turn been shaped by it Through everyday objects and architecture it shows how Pamuk transforms the city into a living museum where different objects converse along with characters to present a rich tapestry across space and time Further the monograph explores the formation of communal and literary identity within and around nation building narratives informed by capitalism and modernization The book also examines how Pamuk uses the postmodern city to move beyond its postmodern confines and utilizes the theories and universes of Bakhtin Benjamin and Foucault to open up his fiction and radically challenge the idea of the novel The volume will be of great interest to scholars and researchers of literature literary theory museum studies architecture and cultural studies and especially appeal to readers of Orhan Pamuk **Europe and**

Orhan Pamuk and the Good of World Literature Gloria Fisk, 2018-02-13 When Orhan Pamuk won the Nobel Prize for Literature in 2006 he was honored as a builder of bridges across a dangerous chasm By rendering his Turkish characters and settings familiar where they would otherwise seem troublingly foreign and by speaking freely against his authoritarian state he demonstrated a variety of literary greatness that testified also to the good literature can do in the world Gloria Fisk challenges this standard for canonization as world literature by showing how poorly it applies to Pamuk Reading the Turkish novelist as a case study in the ways Western readers expand their reach Fisk traces the terms of his engagement with a literary market dominated by the tastes of its Anglophone publics who received him as a balm for their anxieties about Islamic terrorism and the stratifications of global capitalism Fisk reads Pamuk's post 9 11 novels as they circulated through this audience as rich in cultural capital as it is far flung in the American English that is global capital's lingua franca She launches a polemic against Anglophone readers instrumental use of literature as a source of crosscultural understanding contending that this pervasive way of reading across all manner of borders limits the globality it announces because it serves the interests of the Western cultural and educational institutions that produce it Orhan Pamuk and the Good of World Literature proposes a new way to think about the uneven processes of translation circulation and judgment that carry contemporary literature to its readers wherever they live

Premises and Problems Luiza Franco Moreira, 2021-05-01 World literature many have stressed is a systematic category Both literary scholars and social scientists have argued that the prestige of the major literary languages is key to establishing the shape of the overall system In order to critically interrogate world literature and cinema Premises and Problems approaches this system from the perspective of languages and film traditions that do not hold a hegemonic position This perspective raises new questions about the nature of literary hegemony and the structure of world literature How is hegemony established What are the costs of losing it What does hegemony mask How is it masked The contributors focus predominantly on literatures outside the small circle of prestigious modern European languages and on films and film criticism produced outside the best known centers The inclusion of this unfamiliar material calls attention to some areas of obscurity that make key features of the system indistinct or that make it difficult to trace relationships between texts that

hold different levels of prestige such as those of the Global North and the Global South The book argues that the study of world literature and cinema will profit from a sustained and informed engagement with the body of work produced by historical social scientists committed to the perspective of the world system Foundations of Islamic Governance Maszlee Malik, 2016-12-19 Islam can contribute towards the development of societies by establishing a unique model of governance from its explicit ontological worldview through a directed descriptive epistemology The research on governance in this study does not only focus on the positivistic materialist components such as institutions or mechanisms or growth per se but it encompasses the value laden holistic nature of human life in accordance with the Islamic worldview as an important contribution In doing so it formulates good governance in Islam in relation to the conceptualized ihsani social capital which constitutes the main thrust of the constructed model
