

KAWASAKI KZ750N SPECTRE

*High Performance And
Shaft Drive With Cruiser Styling.*

Motorcycles are fun and just at the top is the way they look. Personality looks come in three categories: standard, which is the median; semi-standard, which is the median; and high performance, which is the median. The Kawasaki KZ750N Spectre is a high performance motorcycle with low looks, semi-standard parts and something resembling a cruiser profile, and comes with high pull-back bars, stepped seat, small tank and fat rear tire. These elements of design imply cruiser ideas, but someone that the cruiser buyer isn't concerned with performance, the styling may never make a place in his collection in the same way as a standard, etc.

Kawasaki knows better, and as proof they've come out with the Spectre, cruiser or looks, some high performance features as well as sports bars, and features like shaft drive, unadjustable compression and rubber engine mounts like those on the better touring machines.

The Spectre is the latest in a family of Kawasaki 750s that begins with the standard KZ750, goes with the funmost, high-riser 750 LTD, and goes faster with the super sports GP750.

Chrome is conspicuously absent. The gas tank, side covers and fenders are black with deep maroon panels outlined in gold. The exhaust pipes, engine, cylinders, headlight shell, mirrors, control pads, levers and footpeg supports are painted black. The exhaust pipes and headlight are black chrome. The footrests are silver and rear shock absorber are hidden by black rubber covers. The wheels, fork sliders, shock covers, engine cover and cylinder head, even the metal ring in the middle of the passenger grab bar, are painted gold. Sides of the wheel rims are natural aluminum and the brake discs are the color of stainless steel but everything else seems to be black or gold. The seat is stepped, the bars are up and sweep back, the pegs are forward and the taillight projects on a folded rear fender. The leading edge looks longer than they are and in combination with the fat disk, give the side a semi-slopper. There's no mistaking the Spectre for a standard KZ750.

The difference is in the frame, and go beyond, the styling. The leading edge looks longer than they are, the KZ's 17.25 in. to 16.4. The Spectre's front leg is a 16.75 in. to 16.4, the equivalent of a 1.50, while the KZ comes with a 1.25 in. The rear leg is a 16.75 in. to 16.4, the equivalent of a 1.50.

The difference is in the frame, and go beyond, the styling. The leading edge looks longer than they are, the KZ's 17.25 in. to 16.4. The Spectre's front leg is a 16.75 in. to 16.4, the equivalent of a 1.50, while the KZ comes with a 1.25 in. The rear leg is a 16.75 in. to 16.4, the equivalent of a 1.50.
