The volume edited by Antonella Surbone M.D., a clinical oncologist, and Michael Rowe Ph.D., a medical sociologist, includes chapters written by experts on the topic including physicians, nurses, patients, and advocates and covers a wide range of topics essential to an understanding of the unique challenges and needed responses to the risk, incidence, and aftermath of medical error in the diagnosis, treatment, and aftermath of treatment for cancer. *Clinical Oncology and Error Reduction* will serve as the standard for framing the discussion of error in the field for oncologists, epidemiologists, nurses, healthcare administrators, researchers, and scholars. An indispensable handbook for all clinical oncologists, their staff nurses, and oncology residents and fellows, this book contains practical information for immediate clinical application. Covers topics such as patient safety, error prevention, quality improvement, errors, disclosure, and apology, and the impact of errors on patients and doctors. Each chapter contains special take-home points that highlight issues of particular clinical relevance and application. Prepared by an expert multidisciplinary international team of physicians, nurses, researchers, hospital administrators, bioethicists, patients, and patient advocates. Dr. Surbone shared with ASCO Connection her insights about patient safety and medical errors and offered a glimpse into the history that led to this new book. <https://connection.asco.org/magazine/features/opening-dialogue-about-medical-errors>
