compost green manures perennial grasses and forest products like leaves and ramial wood chips And he grows and harvests a diversity of crops from both cultivated and perennial plants vegetables grains pulses oilseeds fruits and nuts even uncommon but useful permaculture plants like groundnut Apios In a friendly almost conversational way Bonsall imparts a wealth of knowledge drawn from his more than forty years of farming experience My goal he writes is not to feed the world but to feed myself and let others feed themselves If we all did that it might be a good beginning The Nature-study Review Maurice Alpheus Bigelow, Fred Lemar Charles, Elliot Rowland Downing, Anna Botsford Comstock, 1920 **Gardeners Guide** to Growing Vegetables Paul R.
