Stones Larry D. Powell,2012-04-27 Stones is a chronologically composed collection of mostly humorous often self deprecating bite sized anecdotes selected from a broad spectrum of experiences extending across the authors 45 years in pastoral ministry The reader will be pleased to discover that these brief self contained narratives provide fresh first person real life experiences featuring a wide variety of personalities attitudes perceptions prejudices and expectations most of which will catch you by surprise Serendipitous discoveries are sometimes even more delightful when they first appear camouflaged as something else such as being pulled over by an Arkansas State Trooper on a remote mountain highway or fishing without benefit of bait or tackle in the shallows of a Georgia river or being overly anxious for worshippers to exit the sanctuary on an island in the Irish Sea or unknowingly having coffee with the president of the World Bank or being handed a three battery flashlight by an airplane pilot before take off If you enjoy anecdotal reading when the twists and turns are not always predictable you will relish this opportunity to look over the authors shoulder as he views his ministry in the rear view mirror

Benefits Of Aerobic Exercise

We are always reminded that exercise could do wonders for the body. Aerobics, a kind of exercise which helps your body use more oxygen while maintaining your target heart rate, can definitely help a person live longer and healthier. There are studies showing that 30 minutes of aerobics every day would benefit the body a lot. Performing regular aerobic exercises would gradually make the heart larger. A bigger and larger heart would be able to provide more oxygenated blood which can be used by the muscles. This could also mean more energy, whether for longer or shorter periods of exercise or physical activities.
