

Question	Answer	Mark	Comments
----------	--------	------	----------

6(a)	2.5×12 or 30 and 7.5×7 or 52.5 and $12.5 (\times 1)$ or 95	M1	allow one incorrect midpoint or $[2, 3] \times 12$ and $[7, 8] \times 7$ and $[12, 13] (\times 1)$ ignore $t \geq 15$ row
	$\frac{\text{their } 30 + \text{their } 52.5 + \text{their } 12.5}{12 + 7 + 1}$ or $95 + 20$	M1dep	$t \geq 15$ product must be 0 if seen condone bracket error seen eg $30 + 52.5 + 12.5 + 20$
	4.75	A1	accept 4.8 or 5 if full working shown using correct midpoints
	Additional Guidance		
	Two correct from 30, 52.5 and 12.5 implies the first mark and could be used to score up to M2		M1
	Midpoints used in the ranges [2, 3], [7, 8] and [12, 13] must be seen eg 2.5×12 and 7×7 and $12 (\times 1)$ or 3×12 and 7×7 and $13 (\times 1)$ NB These could be used to score up to M2		M1
	Correct products seen in the table but a different method shown in the working lines eg $20 + 4 = 5$		M0

6(b)	Lower than part (a)	B1	
	Additional Guidance

The Malvernian 2014 Malvern College, 2014-12-12 News from the year at Malvern College *The Art of Uncertainty* David Spiegelhalter, 2025-03-04 Named a Best Book of the Year by Forbes and The Economist From our greatest living statistical communicator Tim Harford comes an invaluable data driven guide for understanding and learning to embrace risk and uncertainty in our daily lives How dangerous is our diet How much of sports falls into the realm of luck When authorities categorize a given event as highly likely how likely is that really Whether we're trying to decide if the benefits of a new medication are worth the chance of side effects or if artificial intelligence truly threatens humanity our lives are riddled with uncertainties both everyday and existential yet it can be difficult to know how to properly weigh all those unknowns Luckily for us renowned statistician David Spiegelhalter has spent his career dissecting data to resolve the apparently random and decode the many decisions we face with imperfect information In *The Art of Uncertainty* he shows how we can become better at dealing with what we don't know to make smarter choices in a world so full of puzzling variables In lucid lively prose Spiegelhalter guides us through the principles of probability illustrating how they can help us think more analytically about everything from medical advice to sports to climate change forecasts He demonstrates how taking a mathematical approach to phenomena we might otherwise attribute to fate or luck can help us sort hidden patterns from mere coincidences better evaluate cause and effect and predict what's likely to happen in the future Along the way we learn how a misinterpretation of a probability contributed to the infamous Bay of Pigs fiasco why a ship twice the size of the Titanic sank without a trace and why we can be so confident that no two properly shuffled decks of cards have ever been in the same order Sparkling with wit and fascinating real world examples this is an essential guide to navigating uncertainty while also retaining the humility to admit what we don't or simply cannot know **Learning to Teach Science in the Secondary School** Lindsay Hetherington, Luke Graham, Darren Moore, 2024-06-27 *Learning to Teach Science in the Secondary School* is an indispensable guide to the process practice and reality of learning to teach science in a busy secondary school Written by experienced teachers and expert academics it explores core debates and topics in science education providing practical and insightful advice with research and theory to support your development as a teacher This fully updated fifth edition focuses on the knowledge and skills you will need to develop your science teaching including key approaches to teaching physics chemistry and biology lesson and curriculum planning and assessment There are also new chapters on Safety in science teaching The science of learning for teaching science Mathematics and learning science Science for social justice Inclusive and adaptive science teaching Making use of research practical guidance for science teachers Written with university and school based initial teacher education in mind and including learning objectives lists of useful resources and specially designed tasks in every chapter *Learning to Teach Science in the Secondary School* offers all student and early career teachers accessible and comprehensive guidance to support the journey of becoming an effective science teacher **The Intersection of**

International Achievement Testing and Educational Policy Louis Volante, 2016-06-10 Educational systems around the world look to student assessment programs as they initiate reforms and revise educational policies to increase student achievement This edited volume examines the intersection of international achievement testing and education policy development in key countries around the world exploring how assessments can inform curriculum pedagogy strategic planning and ultimately determine large scale education policy and governance Noted chapter contributors explore how educational leadership and governance issues have been influenced by assessment programs across a range of political economic cultural and educational contexts The Intersection of International Achievement Testing and Education Policy provides educators academics and policymakers with cultural insights historical contexts and a framework for negotiating and understanding the consequences of educational policy decisions in schools

International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Brisenio, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives

OECD Reviews of Evaluation and Assessment in Education: Albania Maghnouj Soumaya, Fordham Elizabeth, Guthrie Caitlyn, Henderson Kirsteen, Trujillo Daniel, 2020-05-07 This review developed in co operation with UNICEF provides Albania with recommendations to help strengthen its evaluation and assessment system to focus on support for student learning It will be of interest to Albania as well as other countries looking to make more effective use of their evaluation and assessment system to improve quality and equity and result in better outcomes for all

students *Diversity and Marginalisation in Childhood* Paula Hamilton, Author, 2021-03-17 This core text offers you an accessible foundation to the topics of diversity inclusion and marginalisation Not only will you develop an understanding of how marginalisation happens you will be encouraged to question and challenge policy and practice through case studies reflective questions and activities The book analyses issues encountered by marginalised groups and the impact these may have on the lives of those concerned together with how you as a practitioner can help to empower these individuals and groups With key chapters bringing attention to less cited marginalised groups such as transgender children children with mental health conditions and looked after children the author critically analyses the difficulties and challenges of inclusive ideology in practice the role of mass media in reinforcing prejudice and examines theoretical frameworks and concepts related to marginalisation inclusion and diversity **Learning to Teach in the Secondary School** Susan Capel, Marilyn Leask, Sarah Younie, 2016-03-17 Learning to teach involves hard work and careful preparation To become an effective teacher requires pedagogical and subject knowledge an understanding of your pupils and how they learn and the confidence to respond to dynamic classroom situations Learning to Teach in the Secondary School is the market leading text for all undergraduate postgraduate and school based routes to qualified teacher status It offers an in depth and practical introduction to the knowledge skills and understanding needed to become a confident and effective teacher With a focus on evidence based practice the book includes a wealth of examples to demonstrate how to successfully apply theory to practice and how to critically analyse your practice to maximise pupil learning This 7th edition is fully updated in light of the latest initiatives evidence and research in the field offering comprehensive coverage unit by unit of the key concepts and skills addressed on initial teacher education courses in preparation for work in schools The wide range of pedagogical features support both university based work including that up to Masters Level and school based initial teacher education and are designed to help you develop those qualities that lead to good practice and a successful future in education Written by expert practitioners thirty six essential units include adopting a positive approach to managing behaviour to support learning ways pupils learn planning lessons units of work and schemes of work motivating pupils assessment inclusion and special educational needs using ICT and digital technologies pupil grouping progression and differentiation managing time workload and stress getting your first teaching post Learning to Teach in the Secondary School provides practical help and guidance for many of the situations and potential challenges you are faced with in school Supported by the Learning to Teach Subjects in the Secondary School Series it is an essential purchase for every aspiring secondary school teacher New Frontiers for College Education Jim Gallacher, Fiona Reeve, 2018-08-06 The college sector is facing a growing number of new challenges caused by technological change globalisation and the growth of mass higher education New Frontiers for College Education considers the impact these changes have had and explores the developing role of college education in countries throughout the world Whilst analysing the issues associated with providing high quality vocational education and training the book also

reflects on the role of colleges in widening access to both further and higher education Drawing together contributions from leading international academics policymakers and practitioners the book explores common themes across these diverse societies as well as some of the key challenges experienced within individual countries It considers the distinctive contributions that colleges can make in responding to these challenges through apprenticeships and other types of vocational education and training Contributors discuss the growing emphasis on creating more integrated systems of tertiary education recognising that colleges and universities are now expected to work more closely together and that these diverse demands can be difficult to reconcile Providing an authoritative and timely analysis of the changing role of colleges in contemporary society this book will be of great interest to academics researchers and postgraduate students in the areas of further and higher education vocational education and training lifelong learning and skills development It should also be essential reading for policymakers as well as practitioners working in colleges and other institutions of higher and further education

Effective Medium-term Planning for Teachers Lee Jerome, Marcus Bhargava, 2015-01-21 Effective medium term planning is the holy grail of planning Once teachers are able to conceptualise learning over a longer period of time they are empowered to achieve outstanding learning as part of their everyday teaching This book explains why medium term plans are important and how to go about constructing them Key coverage includes Practical guidance to support teachers to build their own effective medium term plans Examples of planning in action exploring key principles that can be applied to your own practice Theoretical and practical justifications for the importance of medium term planning Exploration of the links between raising attainment and effective medium term planning This is essential reading for initial teacher education students on university based and school based courses preparing to teach in primary and secondary education and early career teachers seeking to continue their professional learning
