

- For legend elements that are direct children of fieldset elements that are themselves direct children of the form element, set the font size to 1.25em, the font family to a font stack including PTSansCaption, Georgia, Times New Roman, Times, and serif, and absolutely position the elements 0.6em from the top. (*Hint:* Use the selector `form > fieldset > legend`.)
- For the fieldset containing the legend text *Check-in date*, set the width to 40% and float the element on the left.
- For the fieldset containing the legend text *Check-out date*, set the width to 40% and float the element on the right.
- For the fieldset containing the legend text *Parking*, clear floated elements on both the left and right sides.
- For the last fieldset (the one for the submit button), set the padding to 0.5em 0, the bottom margin to 0, and center-align text.

Save your changes to `styles.css`, open `reserve.html` in a browser, then verify that the fieldsets and legends are displayed.

- In `reserve.html`, add three `label` elements to the first fieldset (the one that contains the legend *Contact Information*), containing the label text **Name**, **Email**, and **Phone**. Add code for a text box within each `label` element, using the relevant input types and appropriate name and id values. Add placeholder text if appropriate. Associate each `label` element with the enclosed text box. Save your changes, then in `styles.css`, above the `/* footer section */` comment, add a comment containing the text field styles, then below the comment create the following style rules:

- For input elements, set padding to 0.2em on all sides and font size to 1em.
- For input elements within the first fieldset, absolutely position the elements 5em from the left.
- For the input elements associated with the label text *Name* and *Email*, set the width to 30em.
- For the input element associated with the label text *Phone*, set the width to 12em.
