

MINOLTA MINI PROJECTOR

During past thirty years since Chiyoda Kogaku Seisaku K. K. was first established, many different models of cameras have been marketed by us and in meeting with the requirements of those who desire to enjoy color photography we have produced the Minolta Mini Slide Projector.

The projector is designed for the most convenient handling and its small but novel design and structure will surely suit your requirements. It can easily project a picture over one meter in width in any small room and is highly recommended for family enjoyment.

extend our warmest welcome to you. This series of conference began in 1983 and is jointly organized by the YLL School of Medicine and Faculty of Engineering of the National University of Singapore and the Biomedical Engineering Society Singapore. First of all I want to thank Mr Lim Chuan Poh Chairman A STAR who kindly agreed to be our Guest of Honour to give the Opening Address amidst his busy schedule. I am delighted to report that the 13 ICBME has more than 600 participants from 40 countries. We have received very high quality papers and inevitably we had to turn down some papers. We have invited very prominent speakers and each one is an authority in their field of expertise. I am grateful to each one of them for setting aside their valuable time to participate in this conference. For the first time the Biomedical Engineering Society USA will be sponsoring two symposia i.e. Drug Delivery Systems and Systems Biology and Computational Bioengineering. I am thankful to Prof Tom Skalak for his leadership in this initiative. I would also like to acknowledge the contribution of Prof Takami Yamaguchi for organizing the NUS Tohoku's Global COE workshop within this conference. Thanks also to Prof Fritz Bodem for organizing the symposium Space Flight Bioengineering. This year's conference proceedings will be published by Springer as an IFMBE Proceedings Series. *Popular Photography*, 1993-10 *Popular Photography*, 1985-12 Popular Photography, 2008-12
