Environmental science is the study of the environment.

1. **Ecology** - the study of the interactions between organisms and their environment.
2. **Physiology** - the study of the functions of the body of an organism.
3. **Evolution** - the study of the changes in the characteristics of a population over time.
4. **Genetics** - the study of the inheritance of traits from parents to offspring.
5. **Behavior** - the study of the actions of an organism in response to its environment.
6. **Population** - a group of individuals of the same species living in the same area.
7. **Community** - a group of different species living together in the same area.
8. **Ecosystem** - a community of organisms and their physical environment.
9. **Biome** - a large area of land with a specific climate and a characteristic set of organisms.
10. **Biogeochemistry** - the study of the interactions between living organisms and the Earth's chemical and physical environment.

## Critical Thinking

Environmental science is a complex field that requires critical thinking skills.

1. Analyze each of the following arguments and identify the logical fallacy or logical flaw in each argument.
  - a. **Appeal to Emotion** - The argument that we should protect the environment because it is beautiful.
  - b. **Bandwagon** - The argument that we should protect the environment because everyone else is doing it.
  - c. **Appeal to Authority** - The argument that we should protect the environment because a famous scientist says so.
2. Identify each of the following arguments as **physiological**, **evolutionary**, **behavioral**, **genetic**, or **ecological**.
  - a. **Physiological** - The argument that we should protect the environment because it is healthy.
  - b. **Evolutionary** - The argument that we should protect the environment because it is the only way to survive.
  - c. **Behavioral** - The argument that we should protect the environment because it is the only way to live.
  - d. **Genetic** - The argument that we should protect the environment because it is the only way to pass on our genes.
  - e. **Ecological** - The argument that we should protect the environment because it is the only way to maintain the balance of nature.
