One of the most notable impacts of these shifts is the emergence of highly complex and elaborate forms of serial narrative resulting in a robust period of formal experimentation and risky programming rarely seen in a medium that is typically viewed as formulaic and convention bound Complex TV offers a sustained analysis of the poetics of television narrative focusing on how storytelling has changed in recent years and how viewers make sense of these innovations Through close analyses of key programs including The Wire Lost Breaking Bad The Sopranos Veronica Mars Curb Your Enthusiasm and Mad Men the book traces the emergence of this narrative mode focusing on issues such as viewer comprehension transmedia storytelling serial authorship character change and cultural evaluation Developing a television specific set of narrative theories Complex TV argues that television is the most vital and important storytelling medium of our time *It's Not TV* Marc Leverette, Brian L. Ott, Cara Louise Buckley, 2009-03-23 This collection brings together scholars from fields such as media studies journalism popular culture communication studies urban studies political science visual studies and women's studies who have examined the phenomenon of HBO in one way or another from within their specific disciplines Additionally the collection is international in both focus and contribution with authors from the United States Great Britain Scotland Ireland Canada and Australia Teen Television Sharon Marie Ross, Louisa Ellen Stein, 2008-04-05 This essay collection explores the phenomenon of teen TV in the United States analyzing the meanings and manifestations of this category of programming from a variety of perspectives Part One views teen television through an industrial perspective examining how networks such as WB UPN The CW and The N have created a unique economic framework based on demographic niches and teen focused narrowcasting Part Two focuses on popular teen programs from a cultural context evaluating how such programs reflect and at times stretch the envelope of the cultural contexts in which they are created Finally Part Three explores the cultures of reception including the realms of teen consumerism fan discourse and unofficial production through which teens and consumers of teen media have become authors of the teenage experience in their own right *Quality TV* Janet McCabe, Kim Akass, 2007-09-26 In his seminal book *Television's Second Golden Age* Robert Thompson described quality TV as best defined by what it is not it is not regular TV Audacious maybe but his statement renewed debate on the meaning of this highly contentious term Dealing primarily with the post 1996 era shaped by digital technologies and defined by consumer choice and brand marketing this book brings together leading scholars established journalists and experienced broadcasters working in the field of contemporary television to debate what we currently mean by quality TV They go deep into contemporary American television fictions from The Sopranos and The West Wing to CSI and Lost innovative sometimes controversial always compelling dramas which one scholar has described as now better than the movies But how do we understand the emergence of these kinds of fiction Are they genuinely new What does quality TV have to tell us about the state of today's television market And is this a new Golden Age of quality TV Original often polemic each chapter proposes new ways of thinking about and defining quality TV There is a foreword from Robert Thompson and heated dialogue between
