

Epson EH-TW6100

The EH-TW6100 is the ideal projector for film enthusiasts, gamers and sports fans who want to watch Full HD content on the big screen in the comfort of their own home. Boasting high-end features usually found in top-of-the-range models, the projector offers high definition 2D and 3D viewing that's easy to set up and use.

The EH-TW6100 delivers a 40,000:1 contrast ratio and is enhanced by Epson's 3LCD technology to provide superb quality images. An equally high White and Colour Light Output of up to 2,300 lumens means you can watch content during the day, without sitting in the dark.

With five different colour modes and an auto-colour optimiser, you can enjoy your content rather than adjusting the menu settings. You can easily align projections with horizontal and vertical keystone correction to ensure a straight and correct image, and also use the split-screen function to watch two sources at the same time.

The front facing ventilation system with low-noise fan means you are not subjected to distracting, uncomfortable hot air while watching content. The two embedded 10W speakers support content, while photos of past holidays and outings can be easily displayed using the slideshow function.

3D content is noticeably bright thanks to Epson's luminance enhancement technology. A simple press of a button converts 2D high definition films and video games into 3D, so you can experience even more 3D content. Thanks to the 3D depth adjustment function, depth perception and image quality is much more enhanced than previous Epson 3D projectors. Featuring a pair of lightweight, rechargeable Radio Frequency (RF) active shutter 3D glasses*2, included with the projector, you can enjoy content without interference. You can keep these industry standard glasses for future upgrades, and use them with other home projector and TV manufacturers.
