Metamorphoses of the Werewolf Leslie A. Sconduto, 2014-01-10 The mythical werewolf is known for its sudden transformation under the full moon but the creature also underwent a narrative evolution through the centuries from bloodthirsty creature to hero Beginning with The Epic of Gilgamesh Ovid's Metamorphoses and an account in Petronius Satyricon the book analyzes the context that created the traditional image of the werewolf as a savage beast The Catholic Church's response to the popular belief in werewolves and medieval literature's sympathetic depiction of the werewolf as victim are presented to support the idea of the werewolf as a complex and varied cultural symbol Instructors considering this book for use in a course may request an examination copy here **Jacques-Louis David and Jean-Louis Prieur,**

*The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds* Rebecca Futo Kennedy, Molly Jones-Lewis, 2016-01-08 The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds explores how environment was thought to shape ethnicity and identity discussing developments in early natural philosophy and historical ethnographies Defining environment broadly to include not only physical but also cultural environments natural and constructed the volume considers the multifarious ways in which environment was understood to shape the culture and physical characteristics of peoples as well as how the ancients manipulated their environments to achieve a desired identity This diverse collection includes studies not only of the Greco Roman world but also ancient China and the European Jewish and Arab inheritors and transmitters of classical thought In recent years work in this subject has been confined mostly to the discussion of texts that reflect an approach to the barbarian as other The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds takes the discussion of ethnicity on a fresh course contextualising the concept of the barbarian within rational discourses such as cartography medicine and mathematical sciences an approach that allows us to more clearly discern the varied and nuanced approaches to ethnic identity which abounded in antiquity The innovative and thought provoking material in this volume realises new directions in the study of identity in the Classical and Medieval worlds *Gnosticism, Platonism and the Late Ancient World* Kevin Corrigan, Tuomas Rasimus, 2013-07-25 This Festschrift honors the life and work of John D Turner Charles J Mach University Professor of

**The Crime of Crimes** Jonathan L. Pearl, 2006-01-01 One of the most intriguing and disturbing aspects of history is that most people in early modern Europe believed in the reality and dangers of witchcraft Most historians have described the witchcraft phenomenon as one of tremendous violence In France dozens of books pamphlets and tracts depicting witchcraft as the most horrible of crimes were published and widely distributed Yet in his new book *The Crime of Crimes Demonology and Politics in France 1560-1620* Jonathan Pearl shows that France carried out relatively few executions for witchcraft Through careful research he shows that a zealous Catholic faction identified the Protestant rebels as traitors and heretics in league with the devil and clamoured for the political and legal establishment to exterminate these enemies of humanity But the courts were dominated by moderate Catholics whose political views were in sharp contrast to those of the zealots and as a result the demonologists failed to ignite a major witch craze in France Very few studies have taken such a careful and penetrating look at demonology in France *The Crime of Crimes Demonology and Politics in France 1560-1620* sheds new light on an important period in the history of witchcraft and will be welcomed by scholars and laypersons alike
