**Chemistry** Duncan Morrison, 2007      **Chemistry and You in the Laboratory**, 1962      *Essential Experiments for Chemistry* Daniel Q. Posin, 1961      *Classic Chemistry Experiments*, 2000

Chemistry is an experimental subject and what can be more stimulating than carrying out a laboratory experiment where the results are memorable either by their visual nature or by their tying together of theory. This collection of 100 chemistry experiments has been developed with the help and support of teachers throughout the UK. Each student worksheet is accompanied by a teachers notes sheet which gives details for teachers and technicians on apparatus and chemicals, timing, context, teaching tips, background theory and answers to any questions on the student worksheets. *Classic Chemistry Experiments* is designed as a teaching aid to help communicate the excitement and wonder of chemistry to students and is ideal for both experienced chemistry teachers and to scientists from other disciplines who are teaching chemistry.      Fundamental Experiments in Chemistry Errol Desmond Goddard, 19??

This book contains a collection of tried and tested chemistry experiments to be used in school laboratories collated by Ralph Farley, an ASE member with over 20 years of teaching chemistry to 11-18 year olds. The experiments are clustered into chapters, each experiment starting with a list of the apparatus required, followed by safety information and step by step instructions on how to carry out the experiment. Specimen results follow and the experiment section ends with background information together with some tricks of the trade which will ensure that the experiment is successful.      *Chemistry: Experiments and Principles + Teacher's Guide, Laboratory Manual, Teacher's Laboratory Guide* Paul and Davis Jr. O'Connor (Joseph and others),      Teacher's Guide to Laboratory Experiments for Foundations of Chemistry Ernest R.
