Summary of Essentialism - The Disciplined Pursuit of Less , Essentialism is more than just a productivity hack or time management tactic It is a methodical discipline for identifying what is truly necessary and then getting rid of everything else so we may contribute as much as we can to the issues that truly matter The disciplined pursuit of less helps us to retake control of our own decisions about where to spend our valuable time and energy by forcing us to apply more discriminating criteria for what is Essential as opposed to implicitly granting others the right to make such decisions for us Getting more done in less time isn't the goal of the essentialist approach It's not about accomplishing less It's about completing only the appropriate tasks The fundamental beliefs of we can have it all and I have to do everything are being challenged and they are being replaced with the pursuit of the correct decision in the right way at the right time Instead of allowing others to make

decisions for us we should take back control of where we choose to invest our time and energy Disclaimer This is a summary of the book not the original book and contains opinions about the book It is not affiliated in any way with the original author
