The Dynamics of Change in Modern World Politics Jean Kachiga, 2018-04-04 In modern world politics there exists a dynamic of change and an observable pattern of phenomena These phenomena consist of driving forces of new paradigms that their exigencies induce of new epochs that such exigencies provoke of adjustments made by states who may be initiators new comers late comers or inactive and of shifts in the hierarchy of world powers that the differentiated rate of their adjustment success produces causing what power shift theory refers to as hegemonic transition This book examines the conditions under which such change occurs the recurrence of such change in various epochs of the modern era and the pattern that such recurrence displays in order to explain the recurrent shift in the hierarchy of wealth status and power among peer states

Global Issues in the Context of Space Jean Kachiga, 2016-08-24 *Global Issues in the Context of Spaces* examines globalization using the concept of space to contextualize discussion of global issues The manuscript uses the concept of space to contextualize global issues because spaces are the theater of human activity Global issues result from specific dynamics emerging between people and their activities within specific spaces The growth of population the increase of human activity and the usage of new spaces explain

the complexity and challenges of global issues today **European Journal of Tourism Research** ,2020-03-01 The European Journal of Tourism Research is an open access academic journal in the field of tourism published by Varna University of Management Bulgaria Its aim is to provide a platform for discussion of theoretical and empirical problems in tourism Publications from all fields connected with tourism such as tourism management tourism marketing tourism sociology psychology in tourism tourism geography political sciences in tourism mathematics tourism statistics tourism anthropology culture and tourism heritage and tourism national identity and tourism information technologies in tourism and others are invited Empirical studies need to have either a European context or clearly stated implications for European tourism industry The journal is open to all researchers Young researchers and authors from Central and Eastern Europe are encouraged to submit their contributions Regular Articles in the European Journal of Tourism Research should normally be between 4 000 and 20 000 words Major research articles of between 10 000 and 20 000 are highly welcome Longer or shorter papers will also be considered The journal publishes also Research Notes of 1 500 2 000 words Submitted papers must combine theoretical concepts with practical applications or empirical testing The European Journal of Tourism Research includes also the following sections Book Reviews announcements for Conferences and Seminars abstracts of successfully defended Doctoral Dissertations in Tourism case studies of Tourism Best Practices The European Journal of Tourism Research is published in three Volumes per year There are no charges for publication The full text of the European Journal of Tourism Research is available in the following databases EBSCO Hospitality and Tourism Complete CABI Leisure Recreation and Tourism ProQuest Research Library The journal is indexed in Scopus and Clarivate Analytics Emerging Sources Citation Index The editorial team welcomes your submissions to the European Journal of Tourism Research The Kurds and the Politics of Turkey Deniz Çifçi,2019-08-08 The Kurds constitute the largest stateless nation in the world Their position in Turkey attracts attention both within the country and internationally particularly focusing on the demand for Kurdish independence Yet since the 1990s new Kurdish parties have formed within Turkey who have a variety of ideologies and demands that go beyond and differ in opinion on the question of independence Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands which over simplifies their position within the political backdrop of Turkey This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey Presently the Kurds political demands can be classified into four categories democratic autonomy their cultural rights to be granted federalism territorial autonomies and independence creation of a Kurdish nation state In a broad sense these models can also be ordered into two categories territorial political models federalism and independence and non territorial political models democratic autonomy and cultural rights Considering the diversity within the Kurdish community intertwinement of tribal ethnic and national identity and differences in their language religion and ideology there are several contributing factors for the emergence of the current varied political

demands of Kurds By explaining variation among the Kurds political demands through close analysis of existing at emerging parties this study challenges a deterministic approach to the Kurds which currently dominates the discourse **The HISOFE Dictionary of Midnight Politics** Fossungu, Peter Ateh-Afac,2014-12-01 Building on Fossungu s earlier works and essentially providing Africa with original critical and multi level analyses of the trio of globalization democracy and national determination this book theorizes that African states have to unite in order to have any impact in the global economy Using the failure of the Cameroon Goodwill Association of Montreal CGAM as a case study the book urges Africans to make hard choices and avoid politickerization and midnight politics in favour of fossungupalogy that is the science of straightforwardness necessitating the fearless looking at truth straight in the eye The questions of the book are many but do all boil down to whether or not Africans fear the truth and do not therefore do politics It is amazing that Africans in the West live in societies where fierce political competitors do embrace each other after one has defeated the other but they are incapable of looking their so called friends in the eye and saying for example Man I think you ve totally gotten it wrong this time Such comportment defines politickerization or negative competition While attempting some possible responses to the numerous queries it raises this book basically proffers the science of Four Eyesism as a discipline that all African schools need to institute and make a compulsory subject if the vandalized continent would have to be awakened to its realities This book is rich in Fossungu s dazzling capacity to invent define and use a multitude of new terminological constructs informed by African experiences **Foundations of Comparative Politics** Kenneth Newton,Jan W. van Deth,2021-01-21 Now in its fourth edition this textbook gives a comprehensively updated account of the government and politics of democratic states

Issues and Methods in Comparative Politics Todd Landman,Edzia Carvalho,2016-12-01 Building on the strengths of the third edition this highly regarded textbook continues to provide the best introduction to the strategies of comparative research in political science Divided into three parts the book begins by examining different methods applying these methods to dominant issues in comparative politics using a wealth of topical examples from around the world and then discusses the new challenges in the area This thoroughly revised and updated edition features Additional contemporary case studies including the democratisation of technology and the Arab Spring Detailed discussion of regression analysis and diffusion More analysis of justice inequality and compliance Reflection on new methods and treatments of contemporary comparative politics Balancing reader friendly features with high quality analysis makes this popular academic text is essential reading for everyone interested in comparative politics and research methods **The Routledge Handbook of Religious and**

Foundations of Comparative Politics William Roberts Clark, Matt Golder, Sona Nadenichek Golder, 2024-07-26 Adapted from the groundbreaking bestseller *Principles of Comparative Politics* Fourth Edition *Foundations of Comparative Politics* Second Edition presents a scientific approach to the rich world of comparative inquiry research and scholarship providing a guide to cross national comparison and why it matters This condensed more accessible format introduces students to the key questions in comparative politics using brief insights from tools such as decision social choice and game theory to help them understand clearly why some explanations for political phenomena are stronger than others William Roberts Clark Matt Golder and Sona Nadenichek Golder concentrate on describing the core features of regimes and institutions and on analyzing how these fundamental attributes drive variation in the economic and political outcomes we care about most This approach constructing and testing theories on political phenomena over basic memorization of country specific facts more closely replicates what comparative scholars do to explain rather than describe Current examples that show the application of theory help students develop invaluable real world skills in critical thinking and empirical analysis that they will carry with them long after the course is over Included with this title LMS Cartridge Import this title s instructor resources into your school s learning management system LMS and save time Don t use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site Select the Resources tab on this page to learn more

Simon,Joseph Romance,2013-02-15 So often political science is introduced to students as a segmented field The Challenge of Politics instead enables students to see how the subfields converge around a set of crucial questions can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Can we bring a high level of political prudence or wisdom to bear on judgments about politics and public issues Can citizens and students creatively address the future of politics Riemer Simon and Romance aim to harmonize the valuable lessons of classic and contemporary theory as well as to reconcile politics to scientific and empirical study The book gives students an avenue to explore the impact of philosophy and ideology to recognize major forms of government to evaluate empirical findings and to understand how policy issues directly affect people s lives Throughout the authors look at political dynamics of American comparative and international affairs While continuing to pursue its distinctive normative approach and showing politics to be a potentially humanizing enterprise this new edition of Challenge has been revised and updated for major world events like the global financial crisis recent elections in the U S and elsewhere important policy decisions like the recent Supreme Court ruling in the U S on healthcare and the aftermath of the Arab Spring Based on reviewer feedback it has also been substantially streamlined throughout *American Trade Politics, 4th Edition* , In this comprehensive revision of the most influential widely read analysis of the US trade policymaking system Destler addresses how globalization has reshaped trade politics weakening traditional protectionism but intensifying concern about trade s societal impacts Entirely new chapters treat the deepening of partisan divisions and the rise of trade and issues especially labor and the environment The author concludes with a comprehensive economic and political strategy to cope with globalization and maximize its benefits The original edition of American Trade Politics won the Gladys Kammerer Award of the American Political Science Association for the best book on US national policy
