Ethiopian Public Procurement Manual In Amharic:

The Federal Democratic Republic of Ethiopia International Monetary Fund, 2006-01-30 This paper examines the Annual Progress Report on the Federal Democratic Republic of Ethiopia's Poverty Reduction Strategy. The broad thrust of the government's strategy remains creating rural growth, accelerating private sector growth in the modern economy to create employment and incomes, and strengthening of public institutions to deliver services. The government has embarked on an aggressive program to accelerate progress as rapidly as possible, including a big push on education to create human capacity, expanding infrastructure as rapidly as financing and capacity will allow, opening the economy, building institutions, and decentralizing government.

Public Administration in Ethiopia Bacha Kebede Debela, Geert Bouckaert, Meheret Ayenew Warota, Dereje Terefe Gemechu, 2020-12-01 Building an effective, inclusive, and accountable public administration has become a major point of attention for policymakers and academics in Ethiopia who want to realise sustainable development. This first handbook on Ethiopian Public Administration is written by Ethiopian academics and practitioner academics and builds on PhD studies and conference papers, including studies presented at the meetings of the Ethiopian Public Administration Association (EPAA) established in 2016. Public Administration in Ethiopia presents a wide range of timely issues in four thematic parts: Governance, Human Resources, Performance, and Quality, and Governance of Policies. Each of the individual chapters in this volume contributes in a different way to the overarching research questions: How can we describe and explain the contexts, the processes, and the results of the post-1990 politico-administrative reforms in Ethiopia? And what are the implications for sustainable development? This book is essential for students, practitioners, and theorists interested in public administration, public policy, and sustainable development. Moreover, the volume is a valuable stepping stone for PA teaching and PA research in Ethiopia.

Gender, Vulnerability Theory and Public Procurement S.N. Nyeck, 2023-07-28 Taking up the concept of vulnerability, this book examines the gendered impact of market-based procurement practices. In recent years, ideological shifts and real managerial constraints have forced states everywhere to rely on private resources to solve public problems. Focusing on instances where the state retains ownership of assets and rights, even if it temporarily devolves its authority to a private entity, profit or non-profit, this book uncovers the ways in which these private actors are not just suppliers of materials, goods, but increasingly policy influencers. More specifically, the book focuses on the gendered dynamics within the law, policy, and practice of public procurement and investigates how vulnerability is conceptualized and coded in the process of public acquisition of works, goods, and services from private suppliers. In this book, a series of rich case studies from Africa, the Middle East, and Europe show how vulnerability theory can inform the design of public institutions that are more responsible and responsive to gender-informed demands for social justice. This is the first book to integrate vulnerability theory into public procurement studies in global and comparative perspectives, and it will appeal to scholars and others with interests in gendered dynamics in law and society, international development, public policy, and international

Africa Bounces Back Victor Kgomoewana, 2021-07-15 It has been nearly ten years since Africa is Open for Business was first published and Victor Kgomoewana showcased the continent as a place of opportunity and fertile ground for business But if recent headlines are anything to go by then the current outlook seems dim As a result of corruption the deepening infrastructure backlog including resistance to 4IR developments and the current global pandemic it seems the continent is fast running out of time However when asked if Africa is still open for business Kgomoewana confidently says It depends on your perspective Africa Bounces Back draws on case studies that look at the continent's response to COVID 19 and where it might leave us how the shift from globalisation to more nationalist politics could impact the region amidst growing global terror and the tipping point of the African Continental Free Trade Area implementations Kgomoewana also revisits previous case studies including Ethiopian Airlines China's ongoing involvement in Africa and the new normal innovations that have caused much needed disruptions in their sectors Africa Bounces Back is a reminder that even in the mist of crisis a resilient spirit decisive action and the correct perspective can lead to progress and ultimately success **Dun & Bradstreet**
