**Education in Ethiopia** ,2005 This study provides a detailed snapshot of the education sector up to 2001 02 and for some aspects of the sector up to 2002 03 It takes advantage of administrative data and information from household surveys to document key dimensions of the sector particularly primary and secondary education focusing on costs finance and service delivery and their impact on learning achievement in an effort to discover potentially important areas for further policy development foreword

**Revolutionary Struggles and Girls' Education** Thera Mjaaland,2021-07-27 Revolutionary Struggles and Girls Education At the Frontiers of Gender Norms in North Ethiopia argues that at the base of girls poorer performance than boys at secondary school level when puberty has set in is the symbolic violence entailed in sanctioned femaleness Informed by the modesty of Virgin Mary in Orthodox Christian veneration it instructs girls to internalize a holding back which impinges on her self efficacy and ability to be an active learner Neoliberally informed educational policies and plans which have co opted liberal feminism also in Ethiopia do not address hard lived gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity Despite women s courageous contribution at a literal frontier during the Tigrayan liberation struggle 1975 91 where they fought on equal terms with men and despite the tendency that girls outnumber boys at secondary level in the present context sanctioned femaleness constitutes a frontier for girls educational success and transition to higher education In fact when teaching learning continues to be based on memorization rather than critical thinking the very transformative potential of education is undermined also in a gendered sense

Thinking Outside the Box Eva Poluha,2016-01-28 This book sets out with the question why Ethiopia a country with one of the oldest still existing state formations in the world and a farming population that has domesticated a number of indigenous food products including coffee oilseeds and Eragrostis teff remains one of the poorest in the world To answer this question the authors review the history of Ethiopia from the earliest centuries A D until the 21st century dispelling a number of prevalent myths in the process The book covers topics such as ethnicity a hot issue in todays Ethiopian politics international relations with especially Britain and Italy and the countrys lack of technical and economic progress A survey of the current situation in Ethiopia sets the scene for comparisons with other countries An examination of the history of the West illustrates how the autonomy of intellectual inquiry could promote a spiral of knowledge pave the way for the Industrial Revolution and allow western countries to attain the highest standard of living in the world A review of some East Asian countries Japan South Korea and Taiwan exemplifies how they could catch up with the West Against the backdrop of these studies the authors find the basic causes for Ethiopias poverty to be missed or messed up opportunities to adopt available scientific knowledge and technology Premising that a decent living standard a catch up should be the only reasonable goal also for Ethiopian citizens the authors propose that the country must emphasize promotion of a knowledge and information rather than focusing numbers of school children and schools and of b

entrepreneurship in all economic sectors To boost these requirements successfully the authors argue that all involved in the present development agenda need to think outside the box and reassess at least two common assumptions about Ethiopia's future namely that only heavy handed state guidance can bring about rapid development and that peasants and pastoralists are ignorant and must be told what to do

**Ethiopian Journal of Development Research** ,1994 *The Oxford Handbook of the Ethiopian Economy* Fantu Cheru,Christopher Cramer,Arkebe Oqubay,2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country's unique model of development where the state plays a central role and where a successful

industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia

**Secondary Education in Ethiopia** Rajendra Joshi,Adriaan Verspoor,2012-11-01 This book discusses reforms that should be undertaken in secondary education to support Ethiopia s transition from a low to middle income economy The most critical reform identified is the introduction of a flexible curriculum that serves the needs of all students including those who may not pursue higher education

**Youth and Employment in Sub-Saharan Africa** Hiroyuki Hino,Gustav Ranis,2014-06-05 It is widely acknowledged that youth unemployment is one of the most critical challenges facing countries in Sub Saharan Africa This volume brings together an eminent group of international scholars to analyse the extent and complex nature of this joblessness and offer a set of evidence based policy choices that could contribute to solving the problem in the short and long run Part I reviews the existing literature on youth unemployment and underemployment in Sub Saharan Africa from microeconomic and macroeconomic perspectives while Part II goes on to present detailed country studies of Ethiopia Ghana Kenya and South Africa These studies offer a deep understanding of the situation on the ground and consider country specific solutions Throughout the book it is argued that the standard ILO definition of unemployment is too narrow to correctly portray employment situations in Sub Saharan Africa Several alternative measures of unemployment are presented which show that joblessness is far more pervasive than commonly assumed in the literature This volume will be of interest to academics and policy makers involved in African development
