Ethiopian Journal of Education ,2005 *On Results of the Reform in Ethiopia's Language and Education Policies* Catherine Griefenow-Mewis,2009 This publication reflects the results of the Ethiopian education reform as well as the exceptional efforts that multiethnic Ethiopia undertakes in order to cope with the challenges arising from the population explosion More than 55 per cent of the 77 million Ethiopians are under the age of 18 years The great social and political changes started in Ethiopia at the beginning of the 1990s have resulted in the substitution of the educational system based on Amharic and English by one which uses a multilingual approach According to the Ministry of Education 22 out of the 84 languages spoken in Ethiopia are now used as media of instruction in primary schools The book presents the lectures delivered at the workshop On the Results of the Reform in Ethiopia's Language and Education Policy held at Addis Ababa University in April 2006 by Ethiopian education experts and a German research team Their contribution has facilitated a subsumption into the historical context and has given insight into the analyses of the use of 8 Ethiopian languages in primary schools in different regions of the country *Proceedings of the Second National Educational Conference on Education for Sustainable Development* ,2008 *New Trends in Ethiopian Studies* Harold G. Schooling for Sustainable Development in Africa Heila Lotz-Sisitka,Overson Shumba,Justin Lupele,Di Wilmot,2016-11-11 This book considers the scope and dynamics of Education for Sustainable Development ESD and learning in schools in Africa It explores the conditions and processes that support such learning and examines how ESD in schooling can improve the quality and relevance of education The quality of education has been defined internationally as a key concern for educational institutions around the world including schools in Africa The models of quality are often limited to performance based approaches and or inclusive approaches The contributions in this book show that there is more to a discussion on educational quality in Africa than performance success and or inclusion The chapters explain how ESD brings a new relevance to education in Africa and at the same time sounds the beginning of a new concept of quality education The volume presents a

collection of experiences in creating and supporting quality learning processes through a variety of ESD practices

Abolishing School Fees in Africa ,2009 Progress in literacy and learning especially through universal primary education has done more to advance human conditions than perhaps any other policy Our generation has the possibility of becoming the first generation ever to offer all children access to good quality basic education But it will only happen if we have the political commitment at the country as well as at the international level to give priority to achieve this first in human history And it will only happen if also those who cannot afford to pay school fees can benefit from a complete cycle of good quality primary education Investment in good quality fee free primary education should be a cornerstone in any government s poverty reduction strategy
