Zelko,2024-06-19 The need for Palliative Care is increasing around the world due to demographic change the extension of the lifespan in general and the advances of medical and oncological treatment In Palliative Care quality of life and family centred care are paramount The book entitled Palliative Care Current Practice and Future Perspectives offers an insightful introduction to different concepts and approaches presenting a multidisciplinary perspective and diverse ways of insights provided by a team of authors from various disciplines and regions across Europe Asia and Africa The different chapters divided into five sections provide an insight into current practices from different fields and countries It highlights current knowledge and experiences and discusses ideas for the future development of Palliative Care      General Surgery III Ömer ALABAZ,2022-03-28      Population Medicine and Health Economics Simiao Chen,An Pan,Till Bärnighausen,Chen Wang ,Qiushi Chen,2024-10-04 Population medicine is an emerging medical discipline that aims to maximize aggregate and long

term population health by mobilizing accessible resources through its five care responsibilities prevention diagnosis control treatment and recovery integrating and applying knowledge principles and technologies of modern medicine and related disciplines coordinating individual health behaviors and collective health actions and serving as the medical foundation of public health practices Population health economics is important in population medicine and public health Since resources are limited in order to maximize the aggregate and long term population health benefit we must produce and allocate resources in an effective and efficient manner The value of healthcare interventions are often underestimated and health resources are mostly insufficient The broader social and economic values of healthcare interventions are frequently ignored It is important that we distribute health resources wisely and maximize efficiencies at all three levels micro meso and macro levels Thus this Research Topic focuses on how population health economics as both a key method and a value can help population medicine practitioners to provide better and more efficient care to the population they serve *Ethiopia*
