## **Eu Law Text Cases And Materials Burca:**

**EU Law** Paul Craig,Gráinne De Búrca,2020 Respected as the definitive textbook on the subject this is the stand alone guide to EU law The world renowned authors offer the ideal balance of commentary key cases and materials to provide the most authoritative coverage and analysis *EU Law* Paul|Burca Craig (Grainne de),2024 **European Public Law** Patrick Birkinshaw,2003-02 European integration has been most successful at a legal level and European influences have left an indelible mark on English Public Law These influences must be understood by students and practitioners if they are to understand our public law and its continuing development This new book aims to cover the debate surrounding the influence of Community law on the public law of the United Kingdom in a thematic and analytical manner **Environmental Law: Text, Cases & Materials** Elizabeth Fisher,Bettina Lange,Eloise Scotford,2013-04-25 This new title offers a compact and complete resource for students featuring extracts from leading cases and articles alongside clear explanations and insightful analysis from an experienced author team This unique approach places environmental law in context enabling you to develop a clear and sophisticated understanding of this dynamic area *Cases and Materials on EU Law* Stephen Weatherill,2014 The 11th edition of this respected book provides a valuable selection of significant cases and legislation and an engaging range of carefully selected extracts all of which are presented alongside insightful author notes in an easy to use and accessible format *Text, Cases and Materials on Public Law and Human Rights* Helen Fenwick,Gavin Phillipson,2013-03-04 Building on the strengths of the Sourcebook on Public Law this book has been comprehensively revised to take account of the radical programme of constitutional reform introduced by the Labour Government since 1997

*Steiner & Woods EU Law* Josephine Steiner,Lorna Woods,Philippa Watson,2012-08-30 EU Law covers both the institutions of the EU and the substantive law they produce The new constitution is introduced its aims and the reasons for its negotiation Pedagogical features have been incorporated into this edition making the text easier to navigate Complete EU Law Elspeth Berry,Matthew J. Homewood,Barbara Bogusz,2017 Titles in the Complete series offer students a carefully blended combination of the subject s concepts cases and commentary A combination which encourages critical thinking stimulates analysis and promotes a complete understanding Cases, Materials and Text on Property Law Sjeff van Erp,Bram Akkermans,2012-07-23 This casebook presents a deep comparative analysis of property law systems in Europe ie the law of immovables movables and claims offering signposts and stepping stones for the reader wishing to explore this fascinating area The subject matter is explained with careful attention given to its history foundations thought patterns underlying principles and basic concepts The casebook focuses on uncovering differences and similarities between Europe s major legal systems French German Dutch and English law are examined while Austrian and Belgian law are also touched upon The book combines excerpts from primary source materials case law and legislation and from doctrine and soft law In doing so it presents a faithful picture of the systems concerned Separate chapters deal with the various types of property

rights their creation transfer and destruction with security rights such as mortgages pledges retention of title as well as with harmonising and unifying efforts at the EU and global level Through the functional approach taken by the *Ius Commune* Casebooks this volume clearly demonstrates that traditional comparative insights no longer hold The law of property used to be regarded as a product of historical developments and political ideology which were considered to be almost set in stone and assumed to render any substantial form of harmonisation or approximation very unlikely Even experienced comparative lawyers considered the divide between common law and civil law to be so deep that no common ground so it was thought could be found However economic integration in particular integration of financial markets and freedom of establishment has led to the integration of particular areas of property law such as mortgage law and enforceable security instruments eg retention of title This pressure towards integration has led comparative lawyers to refocus their interest from contract tort and unjustified enrichment to property law and delve beneath its surface This book reveals that today property law systems are closer to one another than previously assumed that common ground can be found and that differences can be analysed in a new light to enable comparison and further the development of property law in Europe

**Steiner & Woods EU Law** Lorna Woods, Philippa Watson, 2014 Now in its 12th edition this leading textbook provides a thorough account of the institutions that govern the EU along with the most important areas of substantive law The book focuses on giving a clear explanation of the law as well as highlighting areas for further debate

**Annual of German and European Law** Russell A. Miller, Peer Zumbansen, 2007-02 German law has been of long standing interest and increasing relevance around the world but access for researchers and practitioners very frequently was limited by the necessity of German language proficiency Offering English language access to these fields the *Annual of German and European Law* 2 jurisdictional reports comments on the latest caselaw from Germany's most significant courts and the case law of the European courts having importance for Germany 3 book reviews surveying the most compelling recent literature whether in the German or English language in the fields of German and European law and 4 translations exclusive English language versions of significant primary sources of German law including statutes and court opinions The first volumes of the *Annual of German and European Law* Volume I Alexander Somek Volume I Susanne Baer Volume I Renate Jaeger Volume II Ginter Frankenberg Volume II Bootjan Zupan Volume II Nigel Foster Volume II The third volume maintains this tradition of high quality peer reviewed scholarship with contributions expected from Gertrude Lubbe Wolff Justice German Federal Constitutional Court and Christian Joerges European University Institute

**Disability and Equality Law in Britain** Anna Lawson, 2008-11-10 The concept of reasonable adjustment alternatively known as reasonable accommodation is rapidly gaining significance for countries throughout Europe and beyond Directive 2000/78 required all EU Member States to ensure that by the end of 2006 at the latest reasonable accommodation obligations would operate to protect disabled people from unequal treatment in the context of employment The new United Nations Convention on the Rights of Persons with Disabilities will require ratifying States to impose such

obligations in a broad range of situations This book provides a detailed and critical analysis of the current and potential role of reasonable adjustment duties in British law It explores the notion of the anticipatory reasonable adjustment duty a notion which is in many respects distinctively British It probes the relationship between reasonable adjustment and other concepts including indirect discrimination and positive discrimination Drawing particularly on US debates potential sources of resistance to the duties are exposed and an attempt is made to suggest pre-emptive counter strategies Attention is also given to issues of legal reform and rationalisation issues of immense topicality and importance in view of the recent British move towards a single Equality Act In short this book examines the current and potential role of reasonable adjustment duties in Britain It will be of interest to lawyers policy makers and students working in the field of disability rights It will also be of interest to all those concerned with the operation and development of equality law and policy more generally both in Britain and beyond

Unlocking EU Law Tony Storey, Alexandra Pimor, 2024-02-22 European Union Law is a core element of every law degree in England and Wales Unlocking EU Law will ensure you grasp the main concepts with ease Containing accessible explanations in clear and precise terms that are easy to understand it provides an excellent foundation for learning and revising EU Law The information is clearly presented in a logical structure and the following features support learning helping you to advance with confidence Clear learning outcomes at the beginning of each chapter set out the skills and knowledge you will need to get to grips with the subject Key Facts boxes throughout each chapter allow you to progressively build and consolidate your understanding End of chapter summaries provide a useful check list for each topic Cases and judgments are highlighted to help you find them and add them to your notes quickly Frequent activities and self test questions and sample essay questions are included so you can put your knowledge into practice A brand new critiquing the law feature is designed to foster essential critical thinking skills This 6th edition has been fully updated to include discussion of all key changes and developments in the law including new legal provisions in relation to Covid 19 major case developments and changes to legal treaties

**From ILO Standards to EU Law** Eve C. Landau, Yves Beigbeder, 2008 This book portrays the achievements and progress of equality at work between men and women The relevant UN Conventions the ILO Philadelphia Declaration of 1944 and the numerous ILO Conventions and Recommendations on the development of equality are recalled The European Union has applied and developed the universal ILO standards empowering rights of equality with effective remedies through EU legislation and enforcement by its Court of Justice The issues covered include equal remuneration and treatment positive or affirmative action dignity of the worker maternity protection part time work and indirect discrimination workers with family responsibilities and child care New perspectives policies and trends are discussed in a conclusion

*Distributional Choices in EU Climate Change Law and Policy* Javier De Cendra de Larragán, 2011-01-01 Climate change policy inevitably has two core components the goals and the means chosen to pursue those goals Decisions on goals and means necessarily have distributional consequences Any policy choice generates winners

and losers While this outcome cannot be avoided even doing nothing leads to distributional consequences policymakers can through the choice design and implementation of policies shape to some extent the distribution of the burdens of mitigation and adaptation to climate change In greater depth than any previous legal study in the field this book deals with the way in which the European Union EU has dealt with climate change and with the distribution of the benefits and costs of climate change mitigation policies among affected parties With extraordinary thoroughness the author assesses the legality of choices made particularly concerning mitigation targets and timelines and examines the role that legal principles can play in the adoption interpretation and judicial testing of distributional choices His analysis of the tension between such choices and EU law is bolstered by an exploration of emerging legal principles which could provide additional guidance in this challenging and controversial area Among the core issues dealt with are the following relationship among mitigation adaptation and sustainable development regulations as means to make distributional choices distributional choices between generations and the principle of intergenerational justice distributional choices concerning firms and individuals the participation of affected parties in distributional choices access to justice in EU courts to challenge violations of procedural environmental rights the role of legal principles in making evaluating and testing distributional choices the principle of proportionality with its tests of appropriateness and necessity the principle of equality the precautionary principle the principle of prevention the polluter pays principle A concluding chapter offers deeply informed recommendations regarding the design of EU climate change law including a preliminary assessment of EU wide personal carbon trading In its insightful illumination of how the inevitable trade offs weaknesses inconsistencies and ambiguities in the way law deals with distributional choices renders them vulnerable to external pressures this book will be of enormous value to regulators and policymakers concerned with effective efficient and fair climate change measures As a critical assessment of existing EU climate change laws and policies and as a systematic analysis of the problem of burden sharing this book will also prove highly valuable to academics in environmental fields of study

**International Law** Malcolm N. Shaw, 2014-09-18 This new edition of International Law confirms the text's status as the definitive book on the subject Combining both his expertise as academic and practitioner Malcolm Shaw's survey of the subject motivates and challenges both student and professional By offering an unbeatable combination of clarity of expression and academic rigour he ensures both understanding and critical analysis in an engaging and authoritative style The text has been updated throughout to reflect recent case law and treaty developments It retains the detailed references which encourage and assist further reading and study

International Law Jan Wouters, Cedric Ryngaert, Tom Ruys, Geert De Baere, 2018-12-13 This textbook offers for the first time a comprehensive analysis of the classic doctrines and main areas of international law from a European perspective meeting the needs of the many European law schools teaching public international law in English Special attention is devoted to the practice of the European Union the Council of Europe and European States both civil law and common law countries with regard to

international law In particular the book analyses the interplay between international law EU law and national law in the case law of the Court of Justice of the EU the European Court of Human Rights and national jurisdictions in Europe It provides the reader with insights into how the international legal practice of the EU and its Member States impacts the development of international law both in terms of doctrines such as treaty making and customary law the exercise of extraterritorial jurisdiction state responsibility and the settlement of disputes as well as particular sub fields of international law such as human rights law and international economic law In addition the book covers other important areas such as the use of force and collective security the law of armed conflict and global and regional international organisations It provides European perspectives on all these issues and will be of great value to students scholars and practitioners

**The Constitutional Dimension of European Criminal Law** Ester Herlin-Karnell, 2012-05-31 Criminal law is one of the most rapidly changing areas of contemporary EU law and integration The Treaty of Lisbon has elevated it to a central place in the constitution of the EU within the dynamic area of freedom security and justice The phenomenon of EU criminal law as such is however far from new but has developed on an ad hoc basis not least as a result of the case law of the European Court of Justice Central to the Court's reasoning in this area has been the principle of effectiveness A main theme running through the book is therefore the role of the axiom of effectiveness which is critically examined with particular attention to its use by the European Court of Justice in recent leading cases This book explores the constitutional principles underlying it both those determining the substantive values it embodies and those determining its scope and extent Other chapters consider the phenomenon of preventative criminalisation at EU level and the protection of subsidiarity and proportionality in EU criminal law The balance between effective EU action proper control of competence and adequate protection of individual rights is of growing importance as EU criminal law expands but as this book suggests has not yet been fully articulated or entrenched by the institutions of the EU

**The Constitutional Value of Sunset Clauses** Antonios Kouroutakis, 2016-10-04 In recent years sunset clauses have mostly been associated with emergency legislation introduced in the wake of terrorist attacks However as this book demonstrates they have a long history and a substantial constitutional impact on the separation of powers and the rule of law In addition the constitutional value of such clauses is examined from certain neglected normative aspects pertaining to concepts such as deliberative and consensus democracy parliamentary sovereignty and constitutional dialogue The work is an amalgam of three perspectives the historical the positive and the normative All three are intertwined and each subsequent part builds upon the findings of the previous one The historical perspective investigates the historical development of sunset clauses since the first Parliaments in England The positive perspective examines the legal effect and the contemporary utility of sunset clauses Finally the normative perspective analyses their interaction with several models of separation of powers and their influence on the dialogue between various institutions as it values their impact on the rule of law formal and substantive The detailed examination of this topical subject will be a valuable resource for academics

researchers and policy makers      **Finding Legal Information** David Pester, 2003-09-30 Given the vast amount of legal information available it is sometimes very difficult and certainly very time consuming to know where to start looking for the specific information you require This book covering the most up to date information sources printed and electronic helps guide the reader towards the information they need It is an accessible and easy to use directory of legal information sources for librarians lawyers students and anyone needing legal information The book covers mainly British and European Union law and includes general material and the main subject areas including online and internet sources It also lists reference material such as legal dictionaries and directories The book is essentially a directory of information sources with publishing details including ISBN and short comments where useful Electronic sources are mentioned where relevant with details of scope and any limitations of coverage Comprehensive and up to date covering electronic sources and important legal developments including civil procedure and human rights Covers the massive expansion of information on the web and online services Based on the author s considerable experience thus he has gained a detailed and wide ranging understanding and appreciation of users needs and areas of interest
