Flat Stanley The Girl Template:

The Early Reader in Children's Literature and Culture Jennifer Miskec, Annette Wannamaker, 2015-12-22 This is the first volume to consider the popular literary category of Early Readers books written and designed for children who are just beginning to read independently It argues that Early Readers deserve more scholarly attention and careful thought because they are for many younger readers their first opportunity to engage with a work of literature on their own to feel a sense of mastery over a text and to experience pleasure from the act of reading independently Using interdisciplinary approaches that draw upon and synthesize research being done in education child psychology sociology cultural studies and children's literature the volume visits Early Readers from a variety of angles as teaching tools as cultural artifacts that shape cultural and individual subjectivity as mass produced products sold to a niche market of parents educators and young children and as aesthetic objects works of literature and art with specific conventions Examining the reasons such books are so popular with young readers as well as the reasons that some adults challenge and censor them the volume considers the ways Early Readers contribute to the construction of younger children as readers thinkers consumers and as gendered raced classed subjects It also addresses children's texts that have been translated and sold around the globe examining them as part of an increasingly transnational children's media culture that may add to or supplant regional ethnic and national children's literatures and cultures While this collection focuses mostly on books written in English and often aimed at children living in the US it is important to acknowledge that these Early Readers are a major US cultural export influencing the reading habits and development of children across the globe

Aphrodite's Daughters Maureen Honey, 2016-08-31 The Harlem Renaissance was a watershed moment for racial uplift poetic innovation sexual liberation and female empowerment Aphrodite's Daughters introduces us to three amazing women who were at the forefront of all these developments poetic iconoclasts who pioneered new and candidly erotic forms of female self expression Maureen Honey paints a vivid portrait of three African American women Angelina Weld Grimké Gwendolyn B Bennett and Mae V Cowdery who came from very different backgrounds but converged in late 1920s Harlem to leave a major mark on the literary landscape She examines the varied ways these poets articulated female sexual desire ranging from Grimké's invocation of a Sapphic goddess figure to Cowdery's frank depiction of bisexual erotics to Bennett's risky exploration of the borders between sexual pleasure and pain Yet Honey also considers how they were united in their commitment to the female body as a primary source of meaning strength and transcendence The product of extensive archival research Aphrodite's Daughters draws from Grimké Bennett and Cowdery's published and unpublished poetry along with rare periodicals and biographical materials to immerse us in the lives of these remarkable women and the world in which they lived It thus not only shows us how their artistic contributions and cultural interventions were vital to their own era but also demonstrates how the poetic heart of their work keeps on beating

Marking Time Michael Middleton, 1982 **Tears of Rage** Sheldon Brivic, 2008 In this provocative study Shelly

Brivic presents the history of the twentieth century American novel as a continuous narrative dialogue between white and black voices Exploring four of the most renowned and challenging works written between 1930 and 1990 William Faulkner's *Absalom Absalom* Richard Wright's *Native Son* Thomas Pynchon's *V* and Toni Morrison's *Beloved* Brivic traces how these works progress through the interaction of white and black perspectives toward confronting the calamity of slavery and its reverberating aftermath and continuing legacy Brivic shows how one novel leads ineluctably to the next and how the four works in a sense form one continuous narrative with Faulkner's attack on the racial system in *Absalom Absalom* in the 1930s a literary space opened for Wright's devastating novel of protest Through the character of Bigger Thomas Wright's *Native Son* exposes a virtually incurable division in American ideologies which leads to the multiplying perspectives of postmodernism in Pynchon's *V* Arriving at the crest of the civil rights movement *V* questions Western systems of control laying a foundation for a world outside the white one and so providing a basis for the African view of reality presented in Morrison's *Beloved* The emergence of African consciousness in American literature exemplified across these works has had and continues to have Brivic concludes the potential not only to redress ongoing injustices but to bring about a new conception of the American universe and its laws of reality Striking in both the selection of novels and the connections Brivic draws among them *Tears of Rage* advances understanding of the destructive nature of racism and the possibilities for overcoming its effects through literature
