

Social Studies Final Exam Grade 8

6. Which of the following terms best defines the covers of the New York Journal?

- (1) Muckraker Journalism
- (2) Yellow Journalism
- (3) Plagiarism
- (4) Investigative Journalism

In 1912, Carrie Chapman Catt, president of the National American Woman Suffrage Association, gave a speech before Congress. An excerpt follows:

Is it not clear that American history makes women suffrage inevitable? That full suffrage in twelve states makes its coming in all 48 states inevitable? That the spread of democracy over the world, including votes for the women of many countries, in each case based upon the principles our Republic gave to the world, compels action by our nation. Is it not clear that the world expects such action and fails to understand its delay?

In the face of these facts we ask you Senators and members of the House of Representatives of the United States, is not the immediate enfranchisement of the women of our nation the duty of the hour?....

... Therefore, we hereby petition you, our only designated representatives, to induce our governors by the immediate passage of the Federal Suffrage Amendment and to use your influence to secure its ratification in your own state, in order that the women of our nation may be endowed with political freedom before the next presidential election, and our nation may secure its world leadership in democracy.

Women suffrage is coming—you know it. Will you, Honorable Senators and Members of the House of Representatives, help or hinder it?

7. What is women's suffrage?

- (1) The pain that women had to endure due to inequalities
- (2) The right to vote
- (3) Suffering because women were required to vote
- (4) Suffering from Senators and members of the House of Representatives

8. What amendment was later passed in response to the demands of the National American Woman Suffrage Association?

- (1) 19th Amendment
- (2) 13th Amendment
- (3) 17th Amendment
- (4) 16th Amendment

Judy L. Arnall, 2018-09-21 School is one option for education homeschooling is the second and unschooling is the third Many parents are frustrated by the school system perhaps because of bullying crowded classrooms and outdated dull online courses Disengaged learners that have no say in their coerced curriculum tend to act out tune out or drop out Education must change and unschooling is the fastest growing alternative method of learning Two decades ago students registered with their local school based on their house address Now with the internet students are borderless Learning can occur anywhere anytime anyway and from anyone including self taught Self directing their education unschoolers learn through Play Projects Reading Volunteering Video games Sports Mentorship Travel Life This book explores the path of 30 unschooled children who self directed all or part of their education and were accepted by universities colleges and other postsecondary schools Most have already graduated What children need most are close relationships parents teachers siblings relatives coaches and mentors within a wider community not just within an institutional school Educational content is everywhere Caring relationships are not Families that embrace unschooling do not have to choose between a quality education and a relaxed connected family lifestyle They can have both **The ETS Test Collection Catalog** Educational Testing Service. Test Collection, 1993 The major source of information on the availability of standardized tests Wilson Library Bulletin Covers commercially available standardized tests and hard to locate research instruments **Be That as It May!** Roberta Maclise McDonald, 2009-05-11 Parents of school children frustrated and confused by the way the public school system seems to shut them out of any meaningful contribution to the education of their children should find this book informative and very helpful The author recounts many of her experiences in the Public Education System from the inside where she taught in a wide variety of places and grades throughout Western Canada over a period of 46 years She recounts the many changes that have taken place in that time frame Roberta as she prefers to be called prides herself on the courage to face difficulties head on and challenge authority when it appears to be self serving rather than dedicated to its founding principles This pursuit has led her to run for public office three times and enter several other fields some in the private sector which gives her a different perspective than souly as a public servant The topics covered range from new trends since the end of W W II to whether uniforms should be instituted to what can be done about bullying Many authorities are quoted and brought into the discussion from Statistics Canada to Hilda Neatby Education is a hot button topic these days second only to Health Care in Canada it seems Roberta wonders whether we are due for some real fundamental changes in the way we teach our children This book encourages us to open a true dialectic on the subject Earning and Learning Susan E. Mayer, Paul E. Peterson, 2010-12-01 A Brookings Institution Press and Russell Sage Foundation publication Education is one of the largest sectors of the U S economy yet scholars educators policymakers and parents do not agree about what the money spent on

education really buys In particular they do not agree on how much education improves children s ability to learn or whether the things children learn in school truly improve their chances for success as adults If schooling increases how much students know and what they know does pay off later then it is important to ask what schools can do to increase students learning and earning The essays in this book report estimates of the effects of learning on earnings and other life outcomes They also examine whether particular aspects of schooling such as the age at which children begin school classroom size and curriculum or structural reform such as national or statewide examinations or school choice affect learning Taken together their findings suggest that liberals are correct in saying that more investment is needed in early education that class sizes should be further reduced and that challenging national or state standards should be established But they also provide support for conservatives who ask for a more demanding curriculum and greater school choice Contributors include John Bishop Eric Hanushek James Heckman Christopher Jencks Caroline Minter Hoxby Fred Mosteller and Christopher Winship
