Half-Life Frank Close, 2015-02-03 It was at the height of the Cold War in the summer of 1950 when Bruno Pontecorvo mysteriously vanished behind the Iron Curtain Who was he and what caused him to disappear Was he simply a physicist or also a spy and communist radical A protege of Enrico Fermi Pontecorvo was one of the most promising nuclear physicists in the world He spent years hunting for the Higgs boson of his day the neutrino a nearly massless particle thought to be essential to the process of particle decay His work on the Manhattan Project helped to usher in the nuclear age and confirmed his reputation as a brilliant physicist Why then would he disappear as he stood on the cusp of true greatness perhaps even the Nobel Prize In Half Life physicist and historian Frank Close offers a heretofore untold history of Pontecorvo's life based on unprecedented access to Pontecorvo's friends and family and the Russian scientists with whom he would later work Close takes a microscope to Pontecorvo's life combining a thorough biography of one of the most important scientists of the twentieth century with the drama of Cold War espionage With all the elements of a Cold War thriller classified atomic research an infamous double agent a possible kidnapping by Soviet operatives Half Life is a history of nuclear physics at perhaps its most powerful when it created the bomb Physics at perhaps its most powerful when it created the bomb

English Theology Daniel Inman, 2014-12-01 The Making of Modern English Theology is the first historical account of theology's modern institutional origins in the United Kingdom Having avoided the revolutionary upheaval experienced by continental institutions and free from any constitutional separation of church and state English theologians were granted a relative freedom to develop their discipline in a fashion distinctive from other European and North American institutions This book explores how Oxford theology from the beginnings of the Tractarian movement until the end of the Second World War both influenced and responded to the reform of the university Neither becoming unbendingly confessional nor reduced to the secular study of religion the Oxford faculty instead emerged as an important ecumenical body rooted in the life and practice of the English churches whilst still being located in the heart of a globally influential research university as a department of the humanities This is an institutional history of reaction and radicalism animosity and imagination and explores the complex and shifting interactions between church nation and academy that have defined theological life in England since the early nineteenth century *NTA UGC NET/JRF Economics Book 2024 - Concerned Subject : Paper II (English Edition) - 12 Mock Tests (1200 Solved Questions)* EduGorilla Prep Experts, 2024-06-01 Best Selling Book in English Edition for NTA UGC NET Economics Concerned Subject Paper II with objective type questions as per the latest syllabus given by the NTA Compare your performance with other students using Smart Answer Sheets in EduGorilla's NTA UGC NET Economics Concerned
