the first book in the series Professional Learning and Development in Schools and Higher Education is edited by two experienced committed and skilled educationists from different parts of the world but with converging values and viewpoints The result is a rich mélange of authors from the USA Australia South Africa Canada and New Zealand all of whom focus on the use of evidence-informed decision-making in schools and classrooms This focus makes for an unusual collection which acts as an antidote to change-agendas which are entirely results-driven The book provides evidence from a variety of countries of how system leaders teachers in schools and higher education must now manage as part of their endeavours to

provide the best possible learning and achievement opportunities for all students What makes this book unique is its engagement with the realities of the challenge of evidence informed conversations which all too quickly become activity traps as teachers are steered away from evidence towards adopting short term pragmatic or ideological solutions which suit the policy agendas of reformists from outside schools and more often than not fail to result in real changes in teaching and learning

Common Core Standards in Diverse Classrooms Jeff Zwiers, Susan O'Hara, Robert Henry Pritchard, 2014. The Common Core State Standards require students to do more with knowledge and language than ever before. Rather than be mere consumers of knowledge, students must now become creators, critics, and communicators of ideas across disciplines. Yet in order to take on these new and exciting roles, many students need daily teaching with an extra emphasis on accelerating their academic communication skills. Common Core Standards in Diverse Classrooms: Essential Practices for Developing Academic Language and Disciplinary Literacy describes seven research-based teaching practices for developing complex language and literacy skills across grade levels and disciplines using complex texts, fortifying complex output, fostering academic interaction, clarifying complex language, modeling, guiding, and designing instruction. Most important, you will find clear descriptions and examples of how these essential practices can and should be woven together in real lessons. The book clarifies how to support the learning of complex language that students need for reaching Common Core and other standards. Provides practical ways to realize the instructional shifts needed with the implementation of new standards in diverse classrooms. Includes frameworks and descriptions on how to develop students' complex language speaking and writing. Helps maximize strategies and tools for building system-wide capacity for sustained growth in the practices. Common Core Standards in Diverse Classrooms is a concise guide for helping us improve our practices to strengthen two vital pillars that support student learning: academic language and disciplinary literacy.
