Teaching First-Year College Students Maggie Murphy, 2019-05-15 The first year experience is an emerging hot topic in academic libraries and many librarians who work with first year students are interested in best practices for engaging and retaining them Professional discussion and interest groups conferences and vendor sponsored awards for librarians working with first year students are popping up left and right A critical aspect of libraries in the first year experience is effective information literacy instruction for first year students Research shows that despite growing up in a world rife with technology and information students entering college rarely bring with them the conceptual understandings and critical habits of thinking needed for finding evaluating and ethically using information in both academic and real world contexts Faculty in upper level courses expect students to learn about the research process in their first year of college and instructors in the first year curriculum expect librarians to teach this to their students Despite all this designing teaching and evaluating effective information literacy instruction specifically for first year students is not necessarily intuitive for instruction librarians That is why Teaching First Year College Students A Practical Guide for Librarians is a comprehensive how to guide for both new and experienced librarians interested in planning teaching and assessing library instruction for first year students The book Examines the related histories of library instruction and first year experience initiatives Summarizes and synthesizes empirical research and educational theory about first year students as learners and novice researchers Establishes best practices for engaging first year students through active learning and inclusive teaching Features excerpts from interviews with a number of instruction librarians who work with first year students in a range of positions and instructional contexts Includes examples of activities lesson plans and assessment ideas for first year library instruction for common first year course scenarios Includes a template to use for library instruction lesson planning Written by a library instruction coordinator with a graduate degree in First Year Studies and a first year instruction librarian Teaching First Year College Students A Practical Guide for Librarians is the first comprehensive how to guide for both new and experienced librarians interested in planning coordinating teaching and assessing library instruction for first year students

The Online Safety Playbook Arun Soni, 2022-03-01 Children must learn several fundamental skills early in life to protect their safety Before crossing the street look both ways Seatbelts must be worn at all times Do not talk to strangers Another item to add to the list is to be wary of hackers and cyber predators Teachers and parents may teach students of all ages fundamental cybersecurity skills and encourage them to use digital hygiene daily They can achieve it by including more online educational resources into their curricula and at the same time educating and updating themselves with cybersecurity skills Children can be taught to automatically protect themselves against cyber threats just as they do

while crossing the street Just ask yourself Are we preparing our children for life in the digital age Are we providing them with the required training and resources to deal with never before seen cyber threats Is our educational system able to keep up with the rapid changes in our society including technological advancements The only problem with teaching Cybersecurity in schools and homes is that educators parents may not be entirely updated on the subject Or may not feel confident enough to teach it due to a lack of knowledge That is why there is assistance for students of all age groups educators and parents
