European programs were caught up in big geopolitical debates about the appropriate role of the Fund in the aftermath of the global financial crisis The book examines the intellectual and policy shifts that took place in the IMF as a result of the controversies about its European programs It concludes with some reflections on how all the programs also produced genuine policy reform and held out the possibility of a return to growth and prosperity

**Recall of MPs** Great Britain. Parliament. House of Commons. Political and Constitutional Reform Committee,2012 The Government published a draft Bill on the Recall of MPs with the aim of restoring faith in the political process after the expenses scandal But the restricted form of recall proposed could reduce public confidence in politics by creating expectations that are not fulfilled Under the Government s proposals constituents themselves would not be able to initiate a recall petition Furthermore the circumstances that the Government proposes would trigger a recall petition are so narrow that recall petitions would seldom if ever take place The Committee believes that the new House of Commons Committee on Standards which will include lay members already has the sanctions it needs to deal with MPs who are guilty of misconduct including recommending the ultimate sanction of expulsion from the House of Commons in cases of serious wrongdoing The Committee argues that the option of expulsion must be actively considered and that the House must be prepared to act The Committee recommends that the Government replace the requirement for a single designated location for signing the recall petition with a requirement for multiple locations that people with an existing postal vote should automatically be sent a postal signature sheet in the event of a recall petition that constituents in Northern Ireland should have the same options for signing a recall petition as constituents elsewhere in the UK rather than being restricted to signing by post
