### **Genres of Transition: Literature and Economy in Portuguese-Speaking Southern Africa**

Thomas Waller, 2024-07-22 This book argues that literary production in Portuguese speaking southern Africa has developed distinctive aesthetic idioms that critically respond to crises of global capitalism and related failures of post colonial governance Drawing from recent research at the intersection of world systems analysis and materialist theories of world literature it identifies and evaluates two generic trends in the post independence literatures of Mozambique and Angola From the mid 1980s to the early 1990s there is a marked tendency in Mozambican literary production towards fictional representations of ghosts spectral effects and gothic narrative techniques In Angola there is an analogous outburst of literary expression from the mid 1990s onwards in which writers increasingly turn towards dystopian images of apocalypse ecological crisis and the disintegration of existing modes of social reproduction Away from a restricted focus on the decline of the post independence Marxist Leninist state the book contends that the upswing in these two genres of writing functions to critically register a world systemic horizon that both surpasses and includes locally determined national realities The patterned repetition of spectral and dystopian forms in Portuguese speaking southern Africa occurred at a time of heightened capitalisation in which the region was subjected to newly expropriative forms of accumulation and ecological enclosure via integration into a reconstellated world system headed by neoliberal finance capital Through close readings of texts by authors such as Mia Couto Suleiman Cassamo Ungulani Ba Ka Khosa Pepetela and Ondjaki this book asks What factors drove literary production towards the figure of the spectre in Mozambique and towards dystopia in Angola What emerging energies and social contradictions found shape in these generic idioms in ways that existing vocabularies were unable to express What does the geo temporal passage from spectrality to dystopia tell us about the history of capitalist development in southern Africa and about the restructuring of political economic parameters across the globe

South Africa Allan Zinn, 2016-08-14 At the time of his death in August 2012 Neville Alexander was undoubtedly one of South Africa's foremost proponents of the philosophy of non racialism He had devoted his life to fighting against the evils of racism sexism and economic injustice He understood how these social realities not only divided but also ranked human beings in terms of human worth and value He saw how these realities diminished the whole society both the perpetrators and victims And so he gave over his life as a scholar and a political activist to challenging these realities This volume brings together the

reflections of a group of activists and scholars on the significance of Neville Alexander to the cause of freedom and justice in South Africa. The reflections are essentially the keynote speeches and the responses to them that were made at a conference in Alexander's honour held at the Centre for Non-Racialism and Democracy at the Nelson Mandela Metropolitan University in July 2013.

A Hidden History of Youth Development in South Africa Margaret Perrow, 2021-03-15. Drawing on two decades of interviews and ethnographic fieldwork, 1998-2018, this book presents a unique and multi-faceted history of youth development in South Africa through the lens of a South African non-governmental organization (NGO) prominent in youth development from the mid-1980s until 2008. The book weaves history, ethnography, and discourse analysis to contextualize the Joint Enrichment Project (JEP) in the politics and history of South African education. It examines JEP's role leading up to and during South Africa's transition to democracy, its work and influence in post-apartheid South Africa, and the continued relevance of its legacy to contemporary initiatives seeking to address youth development and social justice. While JEP repeatedly repositioned itself as an organization from fighting the effects of apartheid on young people to becoming a potential partner with the new African National Congress (ANC) led government, its most significant role may have been to reposition people. After tracing JEP's twenty-year history, the book focuses on the participants in a 1998 Youth Work Scheme, exploring their learning experiences and the program's immediate impact on their lives. It then revisits these participants twenty years later in 2018, analyzing their life trajectories after JEP and comparing them with the life trajectories of former JEP staff over the same period, shedding light on broader patterns of socio-economic reproduction and change in the country. The book concludes with a discussion of a perennial paradox facing youth development institutions. This book will be of great interest to academics, researchers, and post-graduate students in the fields of education, international development, anthropology, and African studies.

The Routledge Handbook of Language Revitalization Leanne Hinton, Leena Huss, Gerald Roche, 2018-03-05. The Routledge Handbook of Language Revitalization is the first comprehensive overview of the language revitalization movement from the Arctic to the Amazon and across continents. Featuring 47 contributions from a global range of top scholars in the field, the handbook is divided into two parts: the first of which expands on language revitalization issues of theory and practice, while the second covers regional perspectives in an effort to globalize and decolonize the field. The collection examines critical issues in language revitalization, including language rights, language and well-being, and language policy; language in educational institutions; and in the home, new methodologies and venues for language learning, and the roles of documentation, literacies, and the internet. The volume also contains chapters on the kinds of language that are less often researched, such as the revitalization of music, whistled languages, and sign languages, and how languages change when they are being revitalized. The Routledge Handbook of Language Revitalization is the ideal resource for graduate students and researchers working in linguistic anthropology and language revitalization and endangerment.
