**Mating Season of the Dragons** Moxie Morrigan, Bambi is a dedicated wildlife researcher following an astonishing tribe of humanoid dragons On one of her observations she realizes it is the breeding season for these creatures Will Bambi manage to mingle business with pleasure This story is 3 160 words long and contains scenes intended for a mature audience Excerpt She drew her head back from the edge of the stone as the creatures below her seemed to have reached their peak For once Bambi didn't want to see any more Her frozen position had sent sharp little pins and needles sensations through her hands and knees and it was a relief to roll over silently her back on the stone She was left staring up at the vibrant oranges and reds of dying leaves It was a warm autumn but that would be over soon and the tribe she watched now would retreat to warm caves for the winter this mating season resulting in several clutches laid during the cold months This group would probably be at it until the leaves finished falling Admittedly it was an interesting concept Bambi turned it over in her head What did it feel like to utterly give in to such primal instinct The rut had to be overpowering the desire to do nothing else but to find a mate to breed Bambi ran her hands down the front of her khaki vest feeling the press of her own ample breasts her nipples hard against the constraints of her bra Her own touch sent a surprisingly strong jolt through her a potent yearning Once more she found herself chewing on her bottom lip Maybe she should just work the tension out do something so that she could concentrate on getting out of here and finish up her notes It was distracting She tried to think of something else anything else as this was really not the time or the place for That She shifted her legs squeezing her knees together

Thajo has been striving for the throne since a young age. The king slumbers within him, and he sees himself riding into battle with sword and steed before his warriors. In the distant future, he wants to be a just regent with a wise queen at his side. Tharandil is certain that he wants to become a saddle and bridle maker. Gurjana and Yirdim observe his inclination towards a trade with a grin. If he wants to take up a profession, then he should do so. The king's sons have the same claim to the crowns if they agree now, there will be no jockeying for places in the throne room later, unless the gods decide otherwise. **Wyreth's Flame** Meredith

Mansfield, 2023-07-29 Sometimes the gift of the right story to tell at the right time is a blessing. Sometimes it's a curse. But the Norse gods don't leave Astrid much choice, either way. On the eve of a desperate battle with her father, lying mortally wounded, the gods give her a story about the first dragon to learn to breathe fire. As usual, the story doesn't come with instructions. It's up to Astrid to decide if the story is meant to calm the frightened children or encourage the dispirited men. Or if she just might be able to do both with the same story. All their lives may depend on her skill with a story. Jacked Cat

Jive Rhys Ford, 2019-03-05 The Kai Gracen Series Book Three Stalker Kai Gracen knew his human upbringing would eventually clash with his elfin heritage, but not so soon. Between Ryder, a pain in his neck, and the lord coaxing him to join San Diego's Southern Rise Court and picking up bounties for SoCalGov, he has more than enough to deal with. With his loyalties divided between the humans who raised him and the lord he's befriended and sworn to protect, Kai finds himself standing at a crossroads. When a friend begs Kai to rescue a small group of elfin refugees fleeing the Dusk Court, he's pulled

into a dangerous mission with Ryder through San Diego's understreets and the wilderness beyond. Things go from bad to downright treacherous when Kerrick Ryder's cousin insists on joining them, staking a claim on Southern Rise, and Kai, burdened by his painful past, must stand with Ryder against Kerrick while facing down the very court he fears and loathes. Dying while on a run is expected for a Stalker, but Kai wonders if embracing his elfin blood also means losing his heart, soul, and humanity along the way.

*Black Dog Blues* Rhys Ford, 2019-03-05

The Kai Gracen Series Book One. Ever since being part of the pot in a high stakes poker game, elfin outcast Kai Gracen figures he used up his good karma when Dempsey, a human Stalker, won the hand and took him in. Following the violent merge of Earth and Underhill, the human and elfin races are left with a messy monster-ridden world, and Stalkers are the only cavalry willing to ride to someone's rescue when something shadowy appears. It's a hard life, but one Kai likes, filled with bounty, a few friends, and most importantly, no other elfin around to remind him of his past. And killing monsters is easy, especially since he's one himself. But when a sidhe lord named Ryder arrives in San Diego, Kai is conscripted to do a job for Ryder's fledgling Dawn Court. It's supposed to be a simple run up the coast during dragon mating season to retrieve a pregnant human woman seeking sanctuary. Easy, quick, and best of all, profitable. But Kai ends up in the middle of a deadly bloodline feud; he has no hope of escaping. No one ever got rich being a Stalker. But then, few of them got old either, and it doesn't look like Kai will be the exception.

**The Bard's Gift** Meredith Mansfield, 2020-08-04

The Reluctant Story Teller. Sixteen-year-old Astrid keeps mostly to herself, finding companionship in the stories her grandmother used to tell. She's too shy even to talk in front of Torolf, the young man she secretly dreams of. Then the Norse god of eloquence appears in Astrid's dreams and forces her to drink the Mead of Poetry. Suddenly, she's compelled to tell her stories in public. Even in front of Torolf, Astrid is meant to use these stories to guide her people from starvation in Greenland to a better future in Markland. A place legends claim is the abode of dragons. But not all of her fierce and independent people are willing to follow a mere girl, even the chieftain's daughter, especially when she counsels peace. Some have other plans for the new land and want to use Astrid and her gift as a tool. The Inventive Young Man Who Loves Her. Torolf never dreamed that quiet Astrid could choose him. Now he's stranded in Iceland as she sails in the opposite direction. To attain the promise of a future with Astrid, he'll have to attempt the impossible: sailing alone across the North Atlantic. Together, they might defy the plans the gods have made for them and change the fate of more than just their own people.

In the Labyrinth of Drakes Marie Brennan, 2016-04-05

Even those who take no interest in the field

of dragon naturalism have heard of Lady Trent's expedition to the inhospitable deserts of Akhia. Her discoveries there are the stuff of romantic legend catapulting her from scholarly obscurity to worldwide fame. The details of her personal life during that time are hardly less private, having provided fodder for gossips in several countries. As is so often the case in the career of this illustrious woman, the public story is far from complete. In this, the fourth volume of her memoirs, Lady Trent relates how she acquired her position with the Royal Scirling Army, how foreign saboteurs imperiled both her work and her well-being, and how her determined pursuit of knowledge took her into the deepest reaches of the Labyrinth of Drakes, where the chance action of a dragon set the stage for her greatest achievement yet.

*Giant Reptiles* Laura Anderson, 2025-03-05

Giant Reptiles explores the extraordinary world of Earth's largest reptiles, examining the evolutionary, biological, and environmental factors that contribute to their immense size. From the saltwater crocodile, the largest living reptile, to the green anaconda, one of the heaviest snakes, and the Aldabra giant tortoise, which boasts lifespans exceeding a century, the book delves into what enables these creatures to thrive. A key insight is how reptile gigantism is inextricably linked to specific environmental conditions and unique physiological adaptations. The book progresses by first introducing major groups of giant reptiles and their evolutionary lineage, including the environmental pressures that led to their size. It then investigates their physiological adaptations, such as circulatory and skeletal systems and metabolic processes. Next, the ecological roles of these reptiles are explored, detailing their impact as apex predators or keystone species, and examining their feeding habits and interactions. The book concludes by addressing the threats these animals face, such as habitat loss and climate change, and discusses potential conservation strategies. This comprehensive approach makes it valuable for students, nature enthusiasts, and anyone keen to understand the biology and conservation of these unique creatures.
