Thurlow, Kristin Liu, 2002 **Race Still Matters** Yuya Kiuchi, 2016-11-15 Essays debunking the notion that contemporary America is a colorblind society More than half a century after the civil rights era of the mid

1950s to the late 1960s American society is often characterized as postracial In other words that the country has moved away from prejudice based on skin color and we live in a colorblind society The reality however is the opposite African Americans continue to face both explicit and latent discriminations in housing healthcare education and every facet of their lives Recent cases involving law enforcement officers shooting unarmed Black men also attest to the reality the problem of the twenty first century is still the problem of the color line In *Race Still Matters* contributors drawn from a wide array of disciplines use multidisciplinary methods to explore topics such as Black family experiences hate crimes race and popular culture residual discrimination economic and occupational opportunity gaps healthcare disparities education law enforcement issues youth culture and the depiction of Black female athletes The volume offers irrefutable evidence that race still very much matters in the United States today

**Meeting the Challenges to Measurement in an Era of Accountability** Henry Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
