Midwifery Global Perspectives Practices And Challenges:

Midwifery Gordon Dannel, 2014-01-01 The role of traditional midwives varies across cultures and at different times and even today these traditional practitioners attend the majority of deliveries in rural areas in developing countries According to WHO each year 45 million births occur at home without skilled health personnel Skilled attendants assist in more than 99% of births in more developed countries versus 62% in developing countries In many rural and periurban communities the perinatal care that traditional midwives offer is generally profoundly rooted in the local culture and collectively valued as the result of hand on experience There is little doubt that traditional midwives play an important role when it comes to cultural competence empathy and psychosocial support at birth with important benefits for the mother and the new born baby This book discusses global perspectives practices and challenges involved in midwifery **Midwifery Practice** Jo

Alexander, Valerie Levy, Sarah Roch, 1993-11-11 This latest volume in the immensely popular Midwifery Practice Series deals with a further set of important issues this time drawn from all three stages of care during pregnancy The chapter structure adopted in the first three books is retained and as before presentation of a broad ranging survey and analysis of key research literature placed in the context of clinical practice is the guiding philosophy behind the whole book **Advanced Practice**

The Advanced Practice Registered Nurse as a Prescriber Louise Kaplan, Marie Annette Brown, 2021-03-02. The Advanced Practice Registered Nurse as a Prescriber is an authoritative reference guide designed for students and practicing APRNs alike, delivering the evidence-based information required for informed and ethical prescribing of medication in various clinical settings. It assists the reader to identify and avoid common prescribing mistakes and pitfalls whilst presenting specific strategies to respond appropriately to an array of typical clinical experiences. This revised second edition includes new and expanded chapters with information on authorizing medical marijuana, prescription monitoring programs, electronic prescribing, prescribing globally and issues surrounding controlled substance prescribing and prescribing for opioid use disorder. This leading single volume resource addresses the opportunities, challenges and responsibilities that APRNs face as prescribers. Covers the laws, regulations and professional issues that affect prescribing. Discusses global approaches to registered nurse and APRN prescribing such as task sharing, formularies and independent authority. Guides APRNs through difficult clinical situations such as patients seeking controlled substances and requesting inappropriate care. Navigates the multiple facets of prescribing controlled substances. Examines the role of the APRN in states with medical marijuana laws. Serves as a resource to engage in advocacy for fully autonomous prescribing. The Advanced Practice Registered Nurse as a Prescriber is essential reading for APRN and pharmacotherapeutics students, registered nurses transitioning to the role of APRN prescriber and all APRNs including Nurse Practitioners, NP, Clinical Nurse Specialists, CNS and Certified Registered Nurse Anesthetists, CRNA.

Supporting Physiological Birth Choices in Midwifery Practice Claire Feeley, 2023-02-28

Highlighting the experiences of midwives who provide care to women opting outside of guidelines in the pursuit of physiological birth Claire Feeley looks at the impact on midwives themselves and explores how teams and organisations support or discourage women s birth choices This book investigates the processes experiences and sociocultural political influences upon midwives who support women s alternative birthing choice and argues for a shift in perspective from notions of an individual s professional responsibility to deliver woman centred care to a broader collective responsibility The book begins by contextualising the importance of quality midwifery care with an exploration of the current debates to demonstrate how hegemonic birth discourse and maternity practices have detrimentally affected physiological birth rates and the wellbeing of women who opt outside of maternity guidelines It provides real life examples of how midwives can facilitate a range of birthing decisions within mainstream midwifery services Moreover an exploration of midwives experiences of delivering such care is presented revealing deeply polarised accounts from moral injury to job fulfilment The polarised accounts are then presented within a new model to explore how a midwife s socio political working context can significantly mediate or exacerbate the vulnerability conflict and stigmatisation that they may experience as a result of supporting alternative birth choices Finally this book explores the implications of the findings looking at how team and organisational culture can be developed to better support women and midwives making recommendations for a systems approach to improving maternity services Discussing the invisible nature of midwifery work what it means to deliver woman centred care and the challenges and benefits of doing so this is a thought provoking read for all midwives and future midwives It is also an important contribution to interprofessional concerns around workforce development sustainability moral distress and compassion in health and social care
