Housing the City by the Bay John Baranski, 2019-02-26 San Francisco has always had an affordable housing problem Starting in the aftermath of the 1906 earthquake and ending with the dot com boom Housing the City by the Bay considers the history of one proposed answer to the city's ongoing housing crisis public housing John Baranski follows the ebbs and flows of San Francisco's public housing program the Progressive Era and New Deal reforms that led to the creation of the San Francisco Housing Authority in 1938 conflicts over urban renewal and desegregation and the federal and local efforts to privatize government housing at the turn of the twenty first century This history of public housing sheds light on changing attitudes towards liberalism the welfare state and the economic and civil rights attached to citizenship Baranski details the ways San Francisco residents turned to the public housing program to build class based political movements in a multi racial city and introduces us to the individuals community activists politicians reformers and city employees who were continually forced to seek new strategies to achieve their aims as the winds of federal legislation shifted Ultimately Housing the City by the Bay advances the idea that public housing remains a vital part of the social and political landscape intimately connected to the struggle for economic rights in urban America

More Than Shelter Amy L. Howard, 2014-05-01 In the popular imagination public housing tenants are considered at best victims of intractable poverty and at worst criminals More Than Shelter makes clear that such limited perspectives do not capture the rich reality of tenants active engagement in shaping public housing into communities By looking closely at three public housing projects in San Francisco Amy L Howard brings to light the dramatic measures tenants have taken to create and sustain and strengthen communities that mattered to them More Than Shelter opens with the tumultuous institutional history of the San Francisco Housing Authority from its inception during the New Deal era through its repeated leadership failures to its attempts to boost its credibility in the 1990s Howard then turns to Valencia Gardens in the Mission District built in 1943 the project became a perpetually contested and embattled space Within that space tenants came together in what Howard calls affective activism activism focused on intentional relationships and community building that served to fortify residents in the face of shared challenges Such activism also fueled cross sector coalition building at Ping Yuen in Chinatown bringing tenants and organizations together to advocate for and improve public housing The account of their experience breaks new ground in highlighting the diversity of public housing in more ways than one The experience of North Beach Place in turn raises questions about the politics of development and redevelopment in this case Howard examines activism across generations first by African Americans seeking to desegregate public housing then by cross racial and cross ethnic tenant groups mobilizing to maintain public housing in the shadow of gentrification Taken together the stories Howard tells challenge assumptions about public housing and its tenants and make way for a broader more productive and inclusive vision of the public housing program in the United States

After the Projects Lawrence J. Vale, 2019 America is in the midst of a rental housing affordability crisis More

than a quarter of those that rent their homes spend more than half of their income for housing even as city leaders across the United States have been busily dismantling the nation's urban public housing projects In *After the Projects* Lawrence Vale investigates the deeply rooted spatial politics of public housing development and redevelopment at a time when lower income Americans face a desperate struggle to find affordable rental housing in many cities Drawing on more than 200 interviews with public housing residents real estate developers and community leaders Vale analyzes the different ways in which four major American cities implemented the federal government's HOPE VI program for public housing transformation while also providing a national picture of this program Some cities attempted to minimize the presence of the poorest residents in their new mixed income communities but other cities tried to serve as many low income households as possible Through examining the social political and economic forces that underlie housing displacement Vale develops the novel concept of governance constellations He shows how the stars align differently in each city depending on community pressures that have evolved in response to each city's past struggles with urban renewal This allows disparate key players to gain prominence when implementing HOPE VI redevelopment A much needed comparative approach to the existing research on public housing *After the Projects* shines a light on the broad variety of attitudes towards public housing redevelopment in American cities and identifies ways to achieve more equitable processes and outcomes for low income Americans *Subject Catalog of the Institute of Governmental Studies Library, University of California, Berkeley* University of California, Berkeley.

Institute of Governmental Studies. Library, 1970 **Contagious Divides** Nayan Shah, 2001-10-29 Nayan Shah has written a book of exceptional originality and importance With a focus on issues of body family and home central concerns of urban health reform he illuminates the role of political leaders public opinion and professionals in the construction and reconstruction of race and the making of citizens in San Francisco He brilliantly analyzes the politics of the movement from exclusion to inclusion regulation to entitlement showing it to be an interactive process Yet as he shows with great subtlety the mark of race remains As a study of citizenship and difference this work speaks to a central theme of American history Thomas Bender Director of the International Center for Advanced Studies at NYU and editor of *Rethinking American History in a Global Age* *Contagious Divides* is an ambitious contribution to our understanding of the troubled history of race in America Nayan Shah offers new insight into the ways that race was inscribed on the streets the bodies and the institutions of San Francisco's Chinatown Above all he offers powerful examples of the impact of ideas about disease sexuality and place on the rhetoric and practice of racial inequality in modern America Thomas J Sugrue author of *The Origins of the Urban Crisis*

Clearinghouse Review, 1980 *Between Mao and McCarthy* Charlotte Brooks, 2015-01-07 During the Cold War Chinese Americans struggled to gain political influence in the United States Considered potentially sympathetic to communism their communities attracted substantial public and government scrutiny particularly in San Francisco and New York *Between Mao and McCarthy* looks at the divergent ways that Chinese Americans in these two cities balanced domestic

and international pressures during the tense Cold War era On both coasts Chinese Americans sought to gain political power and defend their civil rights yet only the San Franciscans succeeded Forging multiracial coalitions and encouraging voting and moderate activism they avoided the deep divisions and factionalism that consumed their counterparts in New York Drawing on extensive research in both Chinese and English language sources Charlotte Brooks uncovers the complex diverse and surprisingly vibrant politics of an ethnic group trying to find its voice and flex its political muscle in Cold War America

Flynn,2018-10-16 In recounting the fascinating intersecting stories of Jim Jones and Harvey Milk Cult City tells the story of a great city gone horribly wrong November 1978 Reverend Jim Jones the darling of the San Francisco political establishment orchestrates the murders and suicides of 918 people at a remote jungle outpost in South America Days later Harvey Milk one of America s first openly gay elected officials and one of Jim Jones s most vocal supporters is assassinated in San Francisco s City Hall This horrifying sequence of events shocked the world Almost immediately the lives and deaths of Jim Jones and Harvey Milk became shrouded in myth Now forty years later this book corrects the record The product of a decade of research including extensive archival work and dozens of exclusive interviews Cult City reveals just how confused our understanding has become In life Jim Jones enjoyed the support of prominent politicians and Hollywood stars even as he preached atheism and communism from the pulpit in death he transformed into a fringe figure a fundamentalist Christian and a fascist In life Harvey Milk faked hate crimes outed friends and falsely claimed that the US Navy dishonorably discharged him over his homosexuality in death he is honored in an Oscar winning movie with a California state holiday and a US Navy ship named after him His assassin a blue collar Democrat who often voted with Milk in support of gay issues is remembered as a right winger and a homophobe But the story extends far beyond Jones and Milk Author Daniel J Flynn vividly portrays the strange intersection of mainstream politics and murderous extremism in 1970s San Francisco the hangover after the high of the Summer of Love Guide to Records in the National Archives--Pacific Sierra Region United States.
