Nicolas Gueudeville and His Work (1652-172?) A. Rosenberg, 2012-12-06 It is generally agreed that great men transcend their time while ordinary men remain rooted in it This is why if we want to know what life was like in days gone by we must study those who were most representative of their age those individuals who though they may have achieved a modicum of fame or notoriety are now because of their limited abilities and outlook largely forgotten The great figures involved in the political and religious controversies that took of the seventeenth century and the beginning place in Holland towards the end of the eighteenth men such as Bayle Jurieu Le Clerc and others who were in the forefront of what has been aptly termed as the crise de la conscience europeenne these figures have been the object of extensive investigation The minor personages of this period on the other hand have received little attention For this reason in a previous study 2 I examined the life and work of one of these minor figures and tried to show how he was representative of those French Huguenots who came to Holland in the latter half of the seventeenth century who settled in relatively remote places and who made an effort to integrate themselves and gain acceptance in Dutch provincial society **L'éloge de la folie** Erasmus, 1731 L'éloge de la folie traduit du latin d'Erasme par M. Halkin, 2024-10-28 This volume of Professor Halkin s articles forms a complement to his recent biography of Erasmus of Rotterdam The articles published here are concerned with his activities and his behaviour and describe parts of what may be called his spiritual and intellectual itinerary different aspects of his thought or different chapters of his life The personality of Erasmus continues to make a striking impact upon those who read him but that it is hard to define it clearly or simply may be seen from the variety of differing judgements scholars have made The last of the

great Latin writers the author of more than a hundred works he strove hard to disseminate his ideas with his books he expounded the theories of Christian humanism in his treatises and letters he incessantly preached peace right to the end of his life he worked for the reform of the Church These themes recur in these articles but in Professor Halkin s view it is his faith his militant and uncompromising Christianity which gives his character its unity *L'Éloge de la Folie, composé en forme de declamation par Erasme. ...
