

Lactose Intolerance

Enzyme Digestion Demonstration

Introduction

Stomach cramps, bloating, and intestinal gas—oh my! This can be a common concern for a majority of the world's population who lack the enzyme to digest certain foods. Milk and dairy products, for example, cause problems for many people who lack the enzyme required to digest lactose, the main carbohydrate found in milk. This demonstration illustrates the use of a commercial enzyme product called Lactaid™ as an aid in milk digestion.

Materials

Galactose, 5 g
Glucose, 10 g
Lactaid™ ½ tablet
Lactose, 10 g
Yeast, active dry, 12 g

Concepts

- Enzyme
- Disaccharide
- Monosaccharide

Procedure

1. Prepare a warm water bath (35–40 °C) for use in the demonstration—a clear glass baking pan with hot tap water will work nicely. The water bath is needed to allow the dramatic balloon expansion to occur within a typical 50-minute class period.

not milk?

2. Weigh out the dry ingredients prior to the demonstration, and grind ½ tablet of Lactaid™ in a mortar with a pestle.
3. Review the diagram of the demonstration setup shown in Figure 1 on page 4.
4. Clearly label each flask as shown in Figure 1.

Chemical Inventory Benefits

Practical Steps to Improve Safety

Do you know what is on your chemical shelves? One of the most practical steps any school science department can take to improve safety is to create and maintain an annual inventory of laboratory chemicals. The chemical inventory works hand-in-hand with Safety Data Sheets and labels to fulfill requirements of the Hazard Communication Standard and the Laboratory Standard.

Chemical Inventory Regulations

Federal and state occupational health and safety regulations require schools to maintain an accurate and up-to-date inventory of all chemicals that may present a physical or health hazard. This require-

ment protects the safety of teachers and staff by ensuring safe chemical management and providing best practices for the storage, handling, and use of chemicals. The inventory list of hazardous chemicals serves as the focal point for and thus integrates all provisions of your school's hazard communication program or Chemical Hygiene Plan. These provisions include updated GHS Safety Data Sheet and labeling requirements, as well as information and training that are needed to identify hazards and prevent exposure to hazardous chemicals. The chemical inventory may also be required

J. Rushdoony,Kenneth Gentry Jr.,Herbert Bowsher,Lewis Bulkeley,Donovan Courville,Jefferson Duckett,P. Richard Flinn,James Jordan,Francis Mahaffy,Tommy W. Rogers, What s wrong with Reformed evangelism Something certainly appears to be wrong When we look at the growth of Arminian Baptist churches and compare this growth with the various Reformed Baptist and Presbyterian denominations the numbers are very discouraging When J Gresham Machen left the old Presbyterian Church of the USA he believed that his newly formed Presbyterian Church of America would grow rapidly as a result of its commitment to biblical inerrancy and the fundamentals of the faith Instead it suffered a split the next year June 1937 and the two new denominations the Bible Presbyterians and Orthodox Presbyterians have not grown much in membership since 1937 Much the same has been true of the various Dutch based Reformed denominations They grow only if the birth rate increases and the death rate decreases within the respective groups As I noted at age 21 the Dutch churches seem to have substituted procreation for a Board of Home Missions I wasn t tactful in my youth the way I am today So what s the problem As you might expect there is more than one problem There is a whole pile of problems such as 1 not systematic evangelism programs 2 imitation Arminian evangelism programs 3 ineffective evangelism programs 4 a message geared to confrontation not conquest 5 the humanism of our era 6 lack of capital 7 lack of confidence 8 lack of past successes to serve as precedents 9 seminaries that don t emphasize evangelism 10 too much concern for the rigors of theological speculation and not enough for the demands of applied theology 11 an inability to recognize and emphasize the strong points of the Reformed heritage relevance concrete answers for social problems scholarship organization 12 fatalism regarding stagnation and defeat 13 ignorance of the warfare between Christianity and humanism 14 compromised apologetic methodology rationalism 15 a

constricted view of the Kingdom of God 16 incompetence in the area of communication 17 a failure to tithe One of the criticisms that has been aimed at the Christian reconstructionist movement is that it has not been concerned with evangelism An odd charge coming from pastors who have never demonstrated that they have had any grasp of evangelism techniques given their tiny churches and invisibility in their communities The Christian reconstruction movement is less than a decade old It has little capital Yet despite its youth and its lack of capital it has been influential enough to become a force in American thought and culture When Newsweek identified the source of the religious right's ideas it listed Chalcedon and only Chalcedon Feb 2 1981 p 60 But this is not evangelism in the eyes of the critics This doesn't count So what does count Not sheer numbers certainly the critics cannot point to their own success using this criterion What is the nature of legitimate evangelism The latest issue of The Journal of Christian Reconstruction addresses itself to this important question But more than this it offers specific affordable suggestions to struggling congregations about how they can grow become more influential and count for something within their communities We need both a theory of evangelism and a practical program for evangelism The Symposium on Evangelism offers both There has been an enormous waste in virtually all popular programs of evangelism They have not been cost effective They have not targeted their audiences properly They have not been geared to repeated contacts They have not been structured in terms of long range objectives objectives stretching out two or more generations The evangelism programs popular if that word can even be used in Reformed circles have generally been warmed over versions of Arminian evangelism These techniques have not worked for Reformed churches yet the pastors have not been willing to scrap them and rethink the whole question Is there a distinctively Reformed evangelism Are its techniques fundamentally different from those employed by Arminian churches Is there a distinctively Christian reconstructionist evangelism a type of evangelism unavailable to the majority of Arminian denominations and congregations The answer to all three questions is the same Yes The Journal provides the evidence Far from being unconcerned with evangelism the Chalcedon movement is vitally concerned with evangelism It is a small movement at present and it needs capital How can it expect to become a world wide force for social change if it neglects evangelism How can its perspective spread to the decision makers of this age except by evangelism Everyone needs evangelism the Arminians the introspective Reformed groups the traditional conservatives the Roman Catholics the universities the heathen seats of power the media the Iron Curtain nations and all points in between But the average pastor faces more immediate problems He has to build up his struggling congregation He needs to take the first steps That's why we have devoted an issue of the Journal to evangelism What distinguishes the Chalcedon movement's view of evangelism from the rival varieties that are common today is the scope of evangelism We are convinced that no evangelism program can hope to succeed unless it is driven by a vision of universal conquest The three strongest political forces in the world today are Marxism militant Islam and modern science All three are predestinarian All three are officially optimistic All three believe that they possess the key which will unlock the door of

history All three believe that they have access to the true law structure which will give them power over the world All three see themselves as agents of historical and social change All three see the whole world as their proper and required domain Until Christians can match them doctrine for doctrine vision for vision we will sit on the sidelines of history cheering for no one in particular Waiting for the game to end so that we can go home That s what most Christians are doing now This produces an ineffective evangelism It produces a socially irrelevant witness It produces the kind of witness the Roman emperors would have preferred to see the early church proclaim The emperors of our day can live with this sort of witness too It is time to change both our strategy and our tactics Gary North
