More specifically, *Strategy for Executives* will help you learn the fundamental concepts of business strategy from scratch. Create a solid plan to protect your core business from erosion and commoditization. Maximize your organization's valuation with our seven different paths to grow. Ensure the implementation of your strategy using our execution system. Understand capital allocation and how it can help you achieve your organization's goals. It also includes a complementary downloadable mindmap and other tools which you can access for free at strategyforexecs.com. This framework is based on extensive multi-year research led by Sun Wu, a seasoned Fortune 500 executive where he and his team broke down the most popular strategy frameworks of the last 40 years, extracted their core ideas and tied them all together into a single didactical and self-contained body of knowledge. The idea is to build your strategy knowledge from the ground up through a unified framework, avoiding the confusion that comes from learning this complex but critical subject from different sources. It combines Sun Wu's over 15 years of real-life experience complemented by a thorough revision of more than 300 books and research papers and over 500 hours of videos, interviews, and formal training. The final result is a concise guide that will help you understand and build a winning strategy from the ground up, supported by numerous examples of modern organizations including General Electric, Amazon, Netflix, HBO, NextEra Energy, Kodak, Google, GoPro, McKinsey & Co., Rolls-Royce, Walmart, Uber, Align Technology, United Parcel Service, UPS, FedEx, Sony, IBM, Dr. Pepper, Snapple, Square, and Procter & Gamble, among others. Downriver Heather Hansman, 2022-01-21. The Green River, the most significant tributary of the Colorado River, runs 730 miles from the glaciers of Wyoming to the desert canyons of Utah. Providing water for thirty-three million people, it flows through ranches, cities, national parks, and some of the most significant natural gas fields in the country. Stopped up by dams, slaked off by irrigation, and dried up by cities, the Green is crucial, overused, and at risk now more than ever. Fights over the

river's water and what's going to happen to it in the future are long standing intractable and only getting worse as the West gets hotter and drier and more people depend on the river with each passing year. Former raft guide and environmental reporter Heather Hansman knew the issues but felt driven to see the situation firsthand and from a different perspective from the river itself. So she set out on a journey in a one person inflatable pack raft and with an open mind and see what the experience might teach her. Mixing lyrical accounts of quiet paddling through breathtaking beauty with nights spent camping solo and lively discussions with farmers, city officials and other people met along the way, *Downriver* is the story of that journey, a foray into the present and future of water in the West.
