She is also the defender of people as a groundbreaking promoter of human public health and an advocate for revolutionary integrated approaches to saving our planet. In an increasingly interconnected world, animal and human health alike depend on sustainable solutions, and Dr Gladys has developed an innovative approach to conservation among the endangered Mountain Gorillas of Bwindi Impenetrable Forest and their human neighbors. *Walking with Gorillas* takes the reader on an incredible personal journey with Dr Gladys from her early days as a student in Uganda enduring the assassination of her father during a military coup to her veterinarian education in England to establishing the first veterinary department for the Ugandan government to founding one of the first organizations in the world that enables people to coexist with wildlife through improving the health and wellbeing of both. Her award-winning approach reduced the impact of the COVID-19 pandemic on critically endangered mountain gorillas. In the face of discrimination and a male-dominated world, one woman's passion and determination to build a brighter future for the local wildlife and human community offers inspiration and insights into what is truly possible for our planet when we come together.
