## **Growing Up With Tanzania Memories Musings And Maths:**

**Hirji: Growing Up With Tanzania** ,2023-04-05 In Growing up with Tanzania Karim Hirji a renowned Professor of Medical Statistics and Fellow of the Tanzania Academy of Science presents a multi faceted evocative portrait of his joyous but conflicted passage to adulthood during colonial and early Uhuru Tanzania His smooth style engages the reader with absorbing true tales cultural currents critical commentary and progressive possibilities By vibrantly contrasting the hope filled sixties with the cynical modern era he also lays bare the paradoxes of personal life and society past and present **A Revolutionary for Our Time** Leo Zeilig,2022-03-22 Walter Rodney was a scholar working class militant and revolutionary from Guyana Strongly influenced by Marxist ideas he remains central to radical Pan Africanist thought for large numbers of activists today Rodney lived through the failed though immensely hopeful socialist experiments in the 1960s and 1970s in Tanzania and elsewhere The book critically considers Rodney s contribution to Marxist theory and history his relationship to dependency theory and the contemporary significance of his work in the context of movements and politics today The first full length study of Rodney s life this book is an essential introduction to Rodney s work **The Banana Girls** Hirji, Karim F.,2017-07-19 Two talented high school girls who are also best friends have resolved to eat bananas everyday Together with their devotion to the truth and idealistic spirit this addiction slowly propels them far into the lands of ideas and action From reserved science students they evolve to be steadfast fighters for justice and ultimately find themselves behind bars convicted of terrorism related charges This action packed novel traces that evolution through a wide cast of characters that range from school mates teachers family members street vendors to state officials and businessmen both national and international It is a story based in Africa of true friendship and the struggle for a decent human existence in the face of powerful adversaries Though otherwise entirely fictional it derives from existent and historical realities Interspersed within its pages you will find enticing entities from the plant kingdom as well as songs photos and mathematical ideas relating to bananas The supplementary material at the end provides an introduction to the factual basis of the story *Traditions Can Be Changed* Harald Barre,2021-11-05 Whether and to what extent African states and societies have been able to break away from colonial impact is a still contentious issue Harald Barre considers newspapers and academic activism in Tanzania as forums in which the project of an independent African nation was shaped through heated debates Examining the changing discourses on race and gender in the 1960s and 1970s he reveals that equating difference with inequality in the national narrative was fiercely contested Pervasive images rooted in colonialism were thus challenged and in some cases fundamentally transformed by journalists students inter national scholars inter national events and the promise of an egalitarian socialist state *A Motorcycle on Hell Run* Seth M. Markle,2017-08-01 Between 1964 and 1974 Tanzania came to be regarded as a model nation and a leading frontline state in the struggle for African liberation on the continent and beyond During this time a number of African American and Caribbean nationalists leftists and pan Africanists traveled to and

settled in Tanzania to join the country that many believed to be leading Africa's liberation struggle. This historical study examines the political landscape of that crucial moment when African American, Caribbean, and Tanzanian histories overlapped, shedding light on the challenges of creating a new nation and the nature of African American and Caribbean participation in Tanzania's nationalist project. In examining the pragmatic partnerships and exchanges between socialist Tanzania and activists and organizations associated with the Black Power movements in the United States and the Caribbean, this study argues that the Tanzanian one-party government actively engaged with the diaspora and sought to utilize its political, cultural, labor, and intellectual capital to further its national building agenda but on its own terms, creating tension within the pan-Africanism movement. An excellent resource for academics and nonacademics alike, this work is the first of its kind, revealing the significance of the radical political and social movements of Tanzania and what it means for us today.

**The Routledge Companion to Postcolonial African Historiography** Thula Simpson, Immanuel R. Harisch, 2025-05-09

The Routledge Companion to Postcolonial African Historiography explores history's fortunes in Modern Africa south of the Sahara from the discipline's Golden Age as a handmaiden in struggles against colonialism to difficult decades when its survival has been threatened by capricious political and economic conditions and the uncertain present where the continent's historians struggle to justify their value to frequently sceptical publics. In exploring the discipline's practical role in past struggles for African emancipation, the volume speaks directly to these challenging but changing circumstances. The chapters feature contributions from leading experts on historiographical traditions of different regions of the continent. They collectively demonstrate how the process of instrumentalizing the past to advance lay struggles has influenced the choices historians have made regarding sources, methodology, interpretation, audiences, and platforms. This practical application has strongly shaped the diverse forms that African historiography has assumed, as reflected in this book. The themes discussed offer a platform for inserting Africa into comparative studies of global historiographical traditions whilst also contributing to contemporary debates on decolonization. In offering accessible insights from leading historians, this is an essential handbook for students and scholars of African history and historiography as well as all those interested in postcolonial studies.

*Peace Corps and Citizen Diplomacy* Stephen M. Magu, 2018-03-13 For over 50 years, more than 225,000 Peace Corps volunteers have been placed in over 140 countries around the world with the goals of helping the recipient countries need for trained men and women to promote a better understanding of Americans for the foreign nationals and to promote a better understanding of other peoples on the part of Americans. The Peace Corps program proposed during a 2 a m campaign stop on October 14, 1960, by America's Camelot was part idealism, part belief that the United States could help Global South countries becoming independent. At the height of the Cold War, the US and USSR were racing each other to the moon, missiles in Turkey and in Cuba, and walls in Berlin consumed the archrivals, sending American graduates to remote villages seemed ill informed. Kennedy's Kiddie Korps was derided as ineffectual; the volunteers accused of being CIA spies, and often their work

made no sense to locals The program would fall victim to the vagaries of global geopolitics in Peru Yawar Malku Blood of the Condor depicting American activities in the country led to volunteers being bundled out unceremoniously in Tanzania they were excluded over Tanzania's objection to the Vietnam War Despite these challenges the Peace Corps program shaped newly independent countries in significant ways in Ethiopia they constituted half the secondary school teachers in 1961 in Tanzania they helped survey and build roads in Ghana and Nigeria they were integral in the education systems alongside other programs Even in the Philippines formerly a U S colony Peace Corps volunteers were welcomed Aside from these outcomes the program had a foreign policy component advancing U S interests in the recipient countries Data shows that countries receiving volunteers demonstrated congruence in foreign policy preferences with the U S shown by voting behavior at the United Nations a forum where countries actions and preferences and signaling is evident Volunteer recipient countries particularly voted with the U S on Key Votes Thus Peace Corps volunteers who function as citizen diplomats helped countries shape their foreign policy towards the U S demonstrating the viability of soft power in international relations

*In Diensten des Afrikanischen Sozialismus* Eric Burton, 2021-03-22 In den 1960er Jahren wurde Entwicklung zu einem universalen Ziel und umkmpften Politikfeld im Spannungsverhältnis von Kaltem Krieg Dekolonisierung und konkurrierenden Sozialismen Die Regierung Tansanias setzte beim Aufbau eines eigenständigen Afrikanischen Sozialismus auch auf Expertise Kredite und Stipendien aus Ost und West Diese Unterstützung galt als Notwendigkeit aber auch als Bedrohung konnte es sich beim Entwicklungspersonal aus kapitalistischen und kommunistischen Ländern doch immer um trojanische Pferde handeln Wie bersetzten sich die Rivalitäten und konkurrierenden Ideen tatsächlich in die Praxis In globalhistorischer Perspektive diskutiert dieses Buch Felder Akteure und konkrete Arenen der Entwicklungsarbeit anhand der entwicklungspolitischen Verflechtungen zwischen Tansania und den beiden deutschen Staaten Auf der Grundlage umfangreicher neu erschlossener Aktenbestände in deutschen und tansanischen Archiven sowie über 100 Interviews zeichnet es die Handlungsspielräume in der globalen Entwicklungsarbeit multiperspektivisch nach und zeigt auf wie visionäre Zukunftsentwürfe in Politik und Alltag immer mehr dem Primat ökonomischer Krisenbewältigung wichen

*The Travails of a Tanzanian Teacher* Karim F Hirji, 2018-04 A riveting account of the first decade of the work of a retired Professor of Medical Statistics Filled with a variety of eye opening episodes it covers lecturing at the University of Dar es Salaam the life of a political exile in a remote rural area and the challenges of setting up from scratch a one of a kind educational institute in Africa

*Religion, Eugenics, Science and Mathematics* Karim F. Hirji, 2023-03-23 This is the second volume on religion this time addressing its relationship with science and the spread of pandemics

*The Banana Girls* Karim Hirji, 2024-03-03 Two talented girls who are best friends have resolved to eat bananas every day Together with their devotion to the truth and idealistic spirit this addiction slowly propels them far into the lands of ideas and action From reserved science students they evolve to be steadfast activists for justice and ultimately find themselves behind bars convicted of terrorism related charges This action packed novel traces

that evolution through a wide cast of characters that range from schoolmates teachers family members street vendors to state officials and businessmen both national and international It is a story based in Africa of true friendship and the struggle for a decent human existence in the face of powerful adversaries Though entirely fictional it derives from existent and historical realities Interspersed within its pages you will find enticing entities from the plant kingdom as well as songs photos and mathematical ideas relating to bananas The supplementary material at the end provides an introduction to the factual basis of the story

**RELIGION POLITICS SCIENCE & SOCIETY** KARIM HIRJI, 2023-04 Religion Eugenics Science and Mathematics by Karim F Hirji examines the dynamic relationship between religion on the one hand and science and mathematics on the other on historical and conceptual grounds It focuses on Hinduism Buddhism Christianity Islam and various shades of secularism including Marxism Where relevant other faiths are integrated into the analysis The questions it addresses include Are religion and science mutually exclusive opposing entities Do divine beings and divine realms exist Are science and religion valid but different forms of truth What are the societal roles of science and religion Can science provide a tenable exalted code of ethics What are the futures of religion and science Can religion and science cooperate in resolving the daunting existential problems facing humanity today All issues are explored in an interdisciplinary historical manner Examination of the religious dimension of the doctrine of eugenics which culminated in the Nazi era extermination pogroms forms a major case study in the book Among other things the book peruses scriptures explores practice enjoins analysis with anecdotes and contrasts the beliefs of scientists and religious luminaries Though it is directed toward the general reader its novel approach broad consideration of social and economic factors and the nature of the evidence it has marshalled makes it of interest to theologians and scientists as well Religion Eugenics Science and Mathematics builds on the foundation laid in Religion Politics and Society by Karim Hirji In addition to eugenics by relating religion to mathematics genetics neurology climate change and other issues the book reveals that the relationship between religion and science is a complex entangled knot not reducible to a simplistic summary The ultimate message of the book is that science and religion can exist harmoniously on the moral plane and that the primary obstacle facing human progress today is neither religion nor science but the dominant neoliberal system that generates vast inequality deep social divisions including religious divisions and a callous disregard for the global biosphere

Under-Education in Africa Karim F Hirji, 2019-08-13 Under Education in Africa From Colonialism to Neoliberalism a collection of edited essays on diverse aspects of educational systems that were written over a period of four and a half decades With the focus on Tanzania they cover education in the German colonial era the days of Ujamaa socialism and the present neo liberal times Their themes include social function of education impact of external dependency on education practical versus academic education democracy and violence in schools role of computers in education effect of privatization on higher education misrepresentation of educational history good and bad teaching styles book reading the teaching of statistics to doctors and student activism in education Two essays provide a comparative view of

the situation in Tanzania and the USA. Deriving from the perspective of an activist educator, these essays connect the state of the education system with the society as a whole and explore the possibility of progressive transformation on both fronts. They are based on the author's experience as a long-term educator, original research, relevant books, newspaper reports, and discussions with colleagues and students. The author is a retired Professor of Medical Statistics who has taught at colleges and universities in Tanzania and at universities in USA and Norway.
