Guelph Ontario Police Report 2009:

Policewomen Kerry Segrave, 2014-02-24 Women in policing have seen three phases of acceptance Beginning in about 1880 they were admitted as police matrons with extremely limited duties Next they were accepted as policewomen around 1910 1916 when that title was officially bestowed on them Finally came assignment of females as general duty officers in the late 1960s and early 1970s Not coincidentally an active women s movement was the driving force behind all three phases As women in policing went from matrons to regular officers they faced harassment and discrimination that only worsened as they neared equality Many still face it today This book examines the history of policewomen from 1880 to 2012 particularly in the U S and tells the story of their gradual recognition by the professional establishment of male officers **Murder** Edward Butts, 2011-01-10 Who committed Toronto s Silk Stocking Murder Why did a quiet accountant in Guelph Ontario murder his wife and two daughters When did police in Alberta hire a self styled mind reader to solve a mass murder How did an American confidence man from Arizona find himself facing a murder charge in Cape Breton Nova Scotia These questions and more are answered in *Murder Twelve True Stories of Homicide in Canada* the latest collection of thrilling true Canadian crime stories by Edward Butts The keenly researched chapters tell the stories behind some of Canada s most fascinating murder cases from colonial times to the 20th century and from the Atlantic provinces to the West Coast and up to the Arctic You ll meet John Paul Radelmuller the Gibraltar Point lighthouse keeper whose murder remains an unsolved mystery wife killer Dr William Henry King and Sinnisiak and Ulukuk Inuit hunters whose trial for the murder of two priests became a national sensation Butts also profiles the investigators who tracked the killers down and in some cases sent them to the gallows in this collection of true tales that range from shocking and macabre to downright weird ***Gambling, Crime and Society*** James Banks, 2017-03-09 This book explores the manifold actual possible and probable interconnections between gambling and crime in the context of the increased availability of wagering activities across many regions of the world It examines the impact of the proliferation and propinquity of land based betting establishments on crime the role of organised crime in the provision of both licit and illicit forms of gambling as well as problem gambling crime and the administration of criminal justice It also assesses the links between gambling sport and corruption and the dimensions of crime that takes place in and around internet gambling sites A thought provoking study this will be of particular interest to scholars in the fields of sociology criminology and social policy **Putting the State on Trial** Margaret E. Beare, Nathalie Des Rosiers, Abigail C. Deshman, 2015-04-01 Canada is often lauded as a model democracy that values the constitutional rights of its citizens So when over a thousand people most of whom were peaceful protesters or hapless bystanders were violently arrested and then detained without charge during the G20 Summit in Toronto in 2010 many Canadians felt shock and outrage *Putting the State on Trial* The Policing of Protest during the G20 Summit examines the political social and economic conditions that allowed the policing of the summit to culminate in human and civil rights violations Written by a multi

disciplinary group of scholars and legal practitioners this book contextualizes events before during and after the summit from a range of perspectives Although the G20 protests serve as a point of departure in every chapter the contributing authors engage with larger questions about the control of dissent the impact of the securitization and internationalization of Canadian politics the implications of legal uncertainty and the accountability vacuum Shared Governance for Sustainable Working Landscapes Timothy M. Gieseke, 2016-08-05 Sustaining our agricultural landscapes is no longer just a technical scientific or even political problem but it has evolved into a socially complex so called wicked problem of conflicting social governance and economics This creates an extreme economic obstacle where the value of ecosystem services remains low and diffuse and the transactions costs remain high and multiple Using Uber like business platform technology and a shared governance model a symbiotic demand for environmental benefits is created Enabling multi sector transactions for environmental benefits this platform innovation would remedy the tragedy of the commons the economic nemesis to achieving landscape sustainability In a nutshell to sustain our agricultural landscapes a transdisciplinary approach supported by a shared governance model housed within a multi sided platform is needed This book introduces an assessment framework identifying governance actors styles and ratios for socio ecological systems The assessment uses a new governance compass to identify the types of actors completing which tasks and identifies the styles of governance used to complete the tasks It is aimed to anyone involved in sustainability science agricultural policy planning or integrated landscape design The Pinochet File Peter Kornbluh, 2016-04-12 Revised and updated the definitive primary source history of US involvement in General Pinochet's Chilean coup the evidence is overwhelming The New Yorker Published to commemorate the fortieth anniversary of General Augusto Pinochet's infamous September 11 1973 military coup in Chile this updated edition of The Pinochet File reveals the shocking formerly secret record of the US government's complicity with atrocity in a foreign country The book now completes the file on Pinochet's story detailing his multiple indictments between 2004 and his death on December 10 2006 including the Riggs Bank scandal that revealed how the dictator had illegally squirreled away over 26 million in ill begotten wealth in secret American bank accounts When it was first released in hardcover The Pinochet File contributed to the international campaign to hold Pinochet accountable for murder torture and terrorism A new afterword tells the extraordinary story of Henry Kissinger's attempt to undercut the book's reception efforts that generated a major scandal that led to a high level resignation at the Council on Foreign Relations illustrating the continued ability of the book to speak truth to power The Pinochet File should be considered the long awaited book of record on U S intervention in Chile A crisp compelling narrative almost a political thriller Los Angeles Times Constructing Ecoterrorism John Sorenson, 2016-07-01T00:00:00Z Animal rights is an important social justice movement and the animal rights movement presents ethical and political challenges to deeply rooted structures of violence and exploitation challenging ideologies of capitalism and speciesism Corporate interests that form the animal industrial complex understand the animal

rights movement as a threat to their profits and have mobilized to undermine it Informed by both critical animal studies and critical terrorism studies John Sorenson analyzes ecoterrorism as a social construction He examines how corporations that profit from animal exploitation fund and produce propaganda to portray the compassionate goals and nonviolent practices of animal activists as outlandish anti human campaigns that operate by violent means not only to destroy Western civilization but also to create actual genocide The idea of concern for others is itself a dangerous one and capitalism works by keeping people focused on individual interests and discouraging compassion and commitment to others Driven by powerful and wealthy industries founded upon the exploitation of nonhuman animals and the extraction of natural resources the discourse of ecoterrorism is a useful mechanism to repress criticism of the institutionalized violence and cruelty of these industries as well as their destructive impact on the environment their major contribution to global warming and ecological disaster and their negative impacts on human health Further by deliberately constructing an image of activists as dangerous and violent terrorists these corporations and their representatives in government have created a widespread climate of fear that is very useful in legitimizing calls for more policing and more repressive legislation such as Bill C 51 in Canada
