## Guerre Capital Alliez E Lazzarato:

**Wars and Capital** Eric Alliez,Maurizio Lazzarato,2018-05-11 A critique of capital through the lens of war and a critique of war through the lens of the revolution of 1968 We are at war declared the President of the French Republic on the evening of November 13 2015 But what is this war exactly In Wars and Capital ric Alliez and Maurizio Lazzarato propose a counter history of capitalism to recover the reality of the wars that are inflicted on us and denied to us We experience not the ideal war of philosophers but wars of class race sex and gender wars of civilization and the environment wars of subjectivity that are raging within populations and that constitute the secret motor of liberal governmentality By naming the enemy refugees migrants Muslims the new fascisms establish their hegemony on the processes of political subjectivation by reducing them to racist sexist and xenophobic slogans fanning the flames of war among the poor and maintaining the total war philosophy of neoliberalism Because war and fascism are the repressed elements of post 68 thought Alliez and Lazzarato not only read the history of capital through war but also read war itself through the strange revolution of 68 which made possible the passage from war in the singular to a plurality of wars and from wars to the construction of new war machines against contemporary financialization It is a question of pushing 68 thought beyond its own limits and redirecting it towards a new pragmatics of struggle linked to the continuous war of capital It is especially important for us to prepare ourselves for the battles we will have to fight if we do not want to be always defeated
