**SCAI Interventional Cardiology Board Review Book** Morton J. Kern, Peter B Berger, Peter C Block, Lloyd W. Klein, 2007. Written by members of the Society for Cardiovascular Angiography and Interventions (SCAI), this book is a comprehensive yet concise review for board certification and recertification exams in interventional cardiology. It covers all the topics that are on the interventional cardiology board examination, including important clinical trials likely to be tested on the exam. More than 180 illustrations and numerous tables for easy study are included.

**The Interventional Cardiology Training Manual** Aung Myat, Sarah Clarke, Nick Curzen, Stephan Windecker, Paul A. Gurbel, 2018-08-01. This textbook is a readily accessible educational tool for all fellows undertaking subspecialty training in interventional cardiology, while also serving as a refresher to early career interventional cardiologists. The key objective is to equip the reader with an evidence based expert led resource focussed primarily on pre procedural planning, periprocedural decision making, and the salient technical aspects of performing safe and effective coronary intervention, the intention being to support the therapeutic decision making process in the emergency room, coronary care unit, or cath lab in order to optimize patient outcome. The Interventional Cardiology Training Manual provides readers with a step by step guide to the basic principles underpinning coronary intervention and facilitates rapid access to best practice from the experts presented in a pragmatic, digestible, and concise format. Uniquely, each chapter has been written in a heart center specific manner, affording the reader an opportunity to learn how individual institutions perform a specific procedure, which algorithms and guidelines they follow, and what evidence they draw on to instigate the best possible care for their patients.
