student's strengths, needs, and preferences and core academic curricula. The need to embrace the current initiative of curriculum state standards in the debate of curricula relevance, breadth, balance, and depth for students with severe disabilities is not just timely; it contributes to the evolving debate of what constitutes an appropriate curriculum for severely disabled learners. *Curricula for Students with Severe Disabilities* supports the development of greater understandings of the role that state curriculum standards play in the pedagogical decision making for students with severe intellectual disabilities. The book first discusses the nature and needs of these students, the curriculum for this group of learners, and the recent contributions of state curriculum standards before presenting narratives of real classrooms, teachers, and students who have meaningfully integrated state curriculum standards at the kindergarten, elementary, and high school levels. **The Essential Guide to Children's Books and Their Creators**, Upon publication, Anita Silvey's comprehensive survey of contemporary children's literature, *Children's Books and Their Creators*, garnered unanimous praise from librarians, educators, and specialists interested in the world of writing for children. Grades 4-8 *Guide to the Museum; Third Floor* Museum of the American Indian, Heye Foundation, 1924 **Closing the Gap** Karen Keaton Jackson, Sandra Vavra, 2007-09-01 Without contraries, there is no progression. William Blake. This is a book about reality and hope. Its chapters reframe the concept of gap, acknowledging distances for example, acknowledging old insights and theory while also honoring teacher discovery. However, it refuses to bow under the weight of these challenges. Its contributors focus instead on how to

overcome acknowledged inadequacies in learning how to teach writing as well as how to practice principled literacy instruction. These contributors see gaps not as unbridgeable chasms but rather as opportunities to educate their students to use writing to understand the broader context of their education and pre-service candidates to adapt curriculum creatively. Contributors include new and seasoned secondary school teachers, graduate students, and university faculty who together remind us of old insights needing to be passed along. Villanueva and show us new practices that challenge the conventions of the status quo and promote social justice. To close the gaps, in short, they demonstrate how rhetoric and truth are intertwined. In a time when too many children continue to be left behind, this book should be required reading for all literacy teachers because it is in our continued willingness to learn from each other that hope resides.

Reading Programs for Young Adults Martha Seif Simpson, 2015-11-16. School and public libraries often provide programs and activities for children in preschool through the sixth grade, but there is little available to young adults. For them, libraries become a place for work, the place to research an assignment or find a book for a report, but the thought of the library as a place for enjoyment is lost. So how do librarians recapture the interest of teenagers? This just might be the answer. Here you will find theme-based units such as *Cartoon Cavalcade*, *Log On at the Library*, *Go in Style*, *Cruising the Mall*, *Space Shots*, *Teens on TV*, and 44 others that are designed for young adults. Each includes a display idea, suggestions for local sponsorship of prizes, a program game to encourage participation, 10 theme-related activities, curriculum tie-in activities, sample questions for use in trivia games or scavenger hunts, ideas for activity sheets, a bibliography of related works, and a list of theme-related films. The units are highly flexible, allowing any public or school library to adapt them to their particular needs.
