Lecole Et Les Enfants De Limmigration Essais Critiques:

L'école et les enfants de l'immigration Abdelmalek Sayad, 2014 La 4e de couv indique Connu pour ses travaux sur les immigrés Abdelmalek Sayad s'est également intéressé à la place de leurs enfants dans l'école française critiquant entre la fin des années 1970 un moment où les enseignants voient arriver de nouveaux publics issus des regroupements familiaux et la fin des années 1990 alors que la problématique de leur réussite scolaire est devenue prégnante dans les débats publics ces textes taient restés jusqu'présent inédits ou cantonnés à une diffusion confidentielle Sayad saisit cette question dans sa genèse et montre comment les dispositifs et les pédagogies mis en œuvre pour concilier ces élèves avec l'école en valorisant ce que l'on suppose être leur culture engendrent des mécanismes de relégation dont les effets se révèlent désastreux à briser la diversité en occultant le poids des facteurs sociaux nombre d'enseignants en sont venus oublier que la mission première de l'école publique est bien d'inclure ces enfants dans la société laquelle la trajectoire migratoire de leurs parents les destine et non de maintenir toute force un lien avec leurs origines au risque de les y enfermer Présenté par Benoit Falaize Université de Cergy et Smaïl Laacher Université de Strasbourg ces textes reviennent avec une remarquable acuité les malentendus d'une politique scolaire qu'il est urgent partir de Sayad de repenser Sociologue directeur de recherche au CNRS Abdelmalek Sayad 1933 1998 est notamment l'auteur de *La Double Absence* Seuil 1999 et avec Pierre Bourdieu du *Déracinement* Minuit 1977

Intercultural Approaches to Education Abdeljalil Akkari, Myriam Radhouane, 2022-02-28 This open access book provides an analysis of contemporary societies and schools shaped by cultural diversity globalization and migration This diversity is necessarily reflected in education systems and requires the promotion of intercultural approaches able to improve learning processes and the quality of education From an international and comparative perspective this book first presents theoretical and conceptual foundations for seriously considering cultural diversity The book also compares intercultural approaches and debates generated in countries as diverse as the United States Canada Brazil Switzerland and France For each national context the book addresses both the historical roots of intercultural approaches and the concrete initiatives driven by educational policies for their implementation in schools and classrooms Finally the book presents discussions surrounding the treatment of linguistic or religious diversity in schools the emergence of global citizenship education and the key role of teachers in intercultural approaches This is an open access book **Doing Democracy in "Third Places"**

Stéphanie Gaudet, Caroline Caron, 2025-04-22 Resulting from a collaborative approach *Doing Democracy in Third Places* presents the results of multi-site ethnographic research in seven Quebec civil society organizations It reports on observations analyses and comparisons of a diversity of innovative citizenship education practices aimed at young people in these third places i.e. socialization spaces different from school and family Focusing on the presentation of case studies the book reveals the diversity of formative experiences offered to young Quebecers The pooling of case analyses leads to a fruitful reflection on education for democratic citizenship through a plurality of citizen experimentation practices rooted in the defense of

children's rights feminist social action the community movement alterglobalism and municipal and school public action With its original conceptual vocabulary and qualitative methodological approach this book will help to push back the geolinguistic and disciplinary boundaries that often separate research currents closely or remotely related to the social and political engagement and participation of young people Written in an accessible style it is aimed at a wide audience including youth organization staff graduate students the youth policy sector and anyone interested in the issues surrounding youth citizenship in the 21st century

Radicalized Loyalties Fabien Truong, 2018-06-11 There is widespread concern today about the radicalization of young muslim men and the deprived areas of Western cities are believed to have become breeding grounds of home grown extremism But how do young Muslims growing up in the cities of the West really live This book takes us beyond the rhetoric and into the housing estates on the outskirts of Paris to meet Adama Radouane Hassan Tarik Marley and a shadowy figure whose name suddenly and brutally became known to the world at the time of the Charlie Hebdo shootings Am dy Coulibaly Seeing Am dy through the eyes of close friends and other young Muslim men in the neighbourhoods where they grew up Fabien Truong uncovers a network of competing loyalties and maps the road these youths take to resolve the conflicts they face becoming Muslim For these young men Islam stands often alone as a resource a gateway as if it were the last route to escape without betrayal and to fight in a meaningful and noble way Becoming Muslim does not necessarily lead to the radicalized other It is more like a long distance race a powerful reconversion of the self that allows for introspection and change But it can also lead to a belligerent presentation of the self that transforms a dead end into a call to arms

Les approches interculturelles en éducation : entre théorie et pratique Abdeljalil

Akkari, 2019-08-22T00:00:00-04:00 Une diversité culturelle croissante caractérise nos sociétés contemporaines façonnées par la mondialisation et les migrations Cette diversité se reflète forcément dans les systèmes éducatifs et exige l'introduction d'approches interculturelles de l'éducation susceptibles d'améliorer les processus d'apprentissage et la qualité de l'éducation partir d'une perspective résolument internationale et comparative cet ouvrage présente dans un premier temps les fondements théoriques et conceptuels de la prise en compte de la diversité culturelle locale Ensuite il s'attache à l'analyse des approches interculturelles et des débats qu'elles suscitent dans des pays aussi divers que les États-Unis le Canada le Brésil la Suisse et la France Pour chaque contexte national l'ouvrage aborde aussi bien les racines historiques des approches interculturelles que les initiatives concrètes impulsées par les politiques éducatives pour leur opérationnalisation dans les écoles et les classes Enfin l'ouvrage expose les discussions entourant le traitement de la diversité linguistique ou religieuse locale la mise en œuvre de l'éducation la citoyenneté mondiale et la place déterminante des enseignants dans les approches
