Description and Measurement of Bilingualism Louis G. Kelly,1969-12-15 In June 1967 the Canadian

National Commission for Unesco and the Universit de Moncton jointly sponsored an international seminar on bilingualism

Although 1967 was Canada s centennial year the seminar was concerned only incidentally with bilingualism in Canada

Instead bilingualism was considered as the essential element in communication between language irrespective of national

boundaries Participants included linguists psychologists and sociologists The report shows that the interdisciplinary

discussions carried on at Moncton were fruitful that significant questions about bilingualism were raised and an

improvement in communication between specialists from different traditions languages and cultures were effected This

volumes makes a valuable contribution toward establishing a general theory of bilingualism
