Avec une préface de Emile Levasseur Henry Weber, 1904 *The Law of Nations in Global History* C. H. Alexandrowicz, 2017-03-10 The history and theory of international law have been transformed in recent years by post colonial and post imperial critiques of the universalistic claims of Western international law The origins of those critiques lie in the often overlooked work of the remarkable Polish British lawyer historian C H Alexandrowicz 1902-75 This volume collects Alexandrowicz's shorter historical writings on subjects from the law of nations in pre colonial India to the New International Economic Order of the 1970s and presents them as a challenging portrait of early modern and modern world history seen through the lens of the law of nations The book includes the first complete bibliography of Alexandrowicz's writings and the first biographical and critical introduction to his life and works It reveals the formative influence of his

Polish roots and early work on canon law for his later scholarship undertaken in Madras 1951-61 and Sydney 1961-67 and the development of his thought regarding sovereignty statehood self determination and legal personality among many other topics still of urgent interest to international lawyers political theorists and global historians *La Compagnie des Indes orientales et François Martin* Paul Kaepelin, 1967

Les compagnies des Indes orientales Philippe Haudrère, 2006

Le 20 mai 1498 trois vaisseaux portugais après avoir doublé le cap de Bonne Espérance atteignent les côtes des Indes orientales Cet événement majeur dans l'histoire du monde inaugure une longue période de changes entre Occidentaux et Orientaux Chaque grande nation européenne désireuse de disposer de sa propre Compagnie des Indes met en place de puissantes institutions qui bénéficient du monopole des relations commerciales et maritimes Le développement de leurs flottes transforme cette aventure en puissance maritime La demande croissante de produits d'Asie conduit les Compagnies à rivaliser pour la conquête de nouveaux marchés Installées peu à peu dans toutes les Indes orientales elles deviennent de formidables machines de pouvoir l'élément essentiel du processus de conquête du monde par les Européens Le présent ouvrage est la première approche comparative consacrée aux différentes Compagnies des Indes

Histoire de la grande île Madagascar Etienne de Flacourt, 2007

Le XVII^e siècle voit la première implantation française Madagascar De 1642-1674 plusieurs navigateurs vont prendre pour base la région du Sud-Est de la Grande Île à Anosy tout d'abord un site proche de l'île de Sainte Luce puis un peu plus au Sud un cap que Pronis le premier gouverneur baptisera le Fort Dauphin en l'honneur du futur roi de France Parmi ces hommes l'un d'eux Etienne de Flacourt y séjournera de 1648-1655 et livrera son retour un ouvrage Histoire de la Grande Île Madagascar fruit de ses aventures et de ses observations Il fit également imprimer un Catéchisme et un Dictionnaire de la langue malgache ouvrages probablement réalisés pour la majeure partie par les Prêtres jésuites qui avaient accompagné l'ouvrage de Flacourt connu deux éditions au XVIII^e siècle l'une de son vivant 1658 l'autre 1661 peu de temps après sa mort en mer alors qu'il retournait Madagascar Il fallut ensuite attendre 1913 pour que Grandidier et al en fassent une nouvelle édition mais l'ouvrage connu un faible tirage et fut vite oublié La lecture anthropologique ne fut pas abordée Par ailleurs les auteurs commirent l'erreur de demander un informateur merina de restituer l'orthographe des mots malgaches de l'Anosy La présente réédition cherche à faciliter la relecture de cette somme de la culture et de l'histoire malgaches à clarifier les faits livrés par le Gouverneur à l'aide des travaux et des monographies publiés depuis Grandidier mais également depuis l'édition de 1995

Building the French empire, 1600-1800 Benjamin Steiner, 2020-08-04

This study explores the shared history of the French empire from the perspective of material culture in order to re-evaluate the participation of colonial Creole and indigenous agency in the construction of imperial spaces The decentred approach to a global history of the French colonial realm allows a new understanding of power relations in different locales Providing case studies from four parts of the French empire the book draws on illustrative

evidence from the French archives in Aix en Provence and Paris as well as local archives in each colonial location The case studies in the Caribbean Canada Africa and India each examine building projects to show the mixed group of planners experts and workers the composite nature of building materials and elements of different global styles that give the empire its concrete manifestation Building the French empire gives a view of the French overseas empire in the early modern period not as a consequence or an outgrowth of Eurocentric state building but rather as the result of a globally interconnected process of empire building **Les compagnies privilégiées de commerce de 1715 à 1770 ...** René Pommepuy, 1922

Les colonies portugaises A. d' Almada Negreiros, 1906 **Sino-French Trade at Canton, 1698-1842** Susan E. Schopp, 2020-11-02 Sino French Trade at Canton 1698 1842 presents a rare and lively view of the French experience at Canton and calls for a reappraisal of France's role in that trade France was one of the two most important Western powers in the eighteenth century and was home to one of the three major European East India companies Yet the nation is woefully underrepresented in Canton trade scholarship Susan E Schopp rescues the French from the sidelines showing that they exerted a presence that though closely watched by their rivals is today largely unrecognized Their contributions were diverse ranging from finding new sea routes to inspiring the renovation of Hong Kong Consequently to ignore the French or to dismiss them as simply also-rans results in a skewed perception of the Canton system Schopp also demonstrates that while the most distinctive aspect of the French model of company trade was the dominant role of the state indeed the French East India Company has been memorably described as a Versailles of trade this did not rule out a place for legitimate and sometimes surprising participation by the private sector On the contrary France's commercial relations with China were inaugurated by private traders and the popularity of the Canton trade spurred the eventual demise of the company model Backed up by extensive archival work Schopp's work demonstrates a remarkable understanding of the Sino European trade and her book reveals an unparalleled passion for the role of seamanship in history It is shocking how little has been written in any language about French trade in China so this excellent book fills a tremendous need It has the potential to become a classic monograph of lasting significance an outstanding work that will make a strong imprint on the historiography Tonio Andrade Emory University Schopp's valuable study shows that the French ought not to be considered also-rans in European trade with China The French way was in fact a distinctive model of European trade with China one different from that of the better known English East India Company The author's comprehensive research takes the reader into the material history of the French trading vessels the Hong and the personnel involved in the trade Robert Aldrich University of Sydney **Genie Civil**, 1892
