Vicious Circles in Disease Jamieson Boyd Hurry, 1911      *The Royal Dictionary, French and English, and English and French* Abel Boyer, 1764      **Prague Linguistic Circle Papers** Eva Hajicová, Tomas Hoskovec, 1999 This volume is the third one of the revived series of Travaux which was the well known international book series of the classical Prague Linguistic Circle published in the years 1929-39. The tradition of the Circle still attracts attention in broad circles of European and American linguistics      The Harmonicon, 1825      **Artists and Amateurs** Perrin Stein, Charlotte Guichard, Rena M. Some of the contributions concern issues of grammar of different languages including a syntactic annotation of a large Czech text corpus, a comparison of Hebrew conditionals with English, a characterization of the typology of the Indo-European verb. A further part focuses on topic focus articulation, information sentence structure, functional sentence perspective with a concept of perspective introduced as close to but distinct from topic and with three different viewpoints on the semantics of information structure. Two broader essays on the nature of language are then presented while the last section analyzes the structure of free verse. The volume represents a contribution to the continuing fruitful interaction between the work of the Prague School and the more and less closely related approaches of linguists in other countries.
